Future Goals

- In order to engage students and be visible across campus, during this fall semester the board of directors will conduct two outreach events, as well as have each board member attend three events in their respective college and participate regularly in their college Inter-Club Council meetings and events.
- To ensure the responsibility and accountability of the board this fall semester, each board member will have regular one-on-one meetings with either the Chair or Vice Chair and the Director of ASI Leadership and Program Development every other week and each board member will hold one hour of office hours per week.
- Board members will engage in conversation and listen to the needs and wants of the campus. The board will communicate on a regular basis with the executive officers, professional staff, fellow board members, college constituents, and assistant deans of their respective college through a monthly newsletter and conversations tailored to the activities, programming, and day to day operations of ASI. Throughout campus and during the board meetings, the board of directors will be

people of character, be open-minded, humble, and respectable in meetings where serving as a board member throughout this fall semester.
