**What do you believe is the role of ASI on our campus and how does that role relate to this position?**

I believe the role of ASI is to help enhance a Titan’s college career experience – whether it be through employment from the Student Recreation Center, Children’s Center; giving back to the community through volunteer programs; offering resources to help benefit student’s academia performance such as late night study week, and providing social, cultural, and recreational events for students to learn more about themselves and our Titan community. ASI’s role relates to this position by having a representative from each academic college to ensure every student’s voice is being heard and advocated for. The Board of Director position is the messenger between ASI and the academic college to promise students that there is support from the student body government to help them feel welcome and successful here at CSUF. They also help support the organizations and clubs in the academic college through the interclub council as well.

**Tell us about any relevant past involvement or work experience that you have and how it will help you as a Director for your college.**

Living in the theme community floor of Health and Human Development has helped me understand and support the first time freshmen needs based off of my experience and their suggestions.

Alpha Phi Omega has helped me become more confident in myself and being a student leader. I have also improved on my interpersonal skills where I’m able to communicate effectively in groups or one to one interaction.

ORO (Outreach, Recruitment, and Orientation) has helped me solidify my public speaking skills and increased my knowledge with connecting students to resources. This can be beneficial as a Director because I can help students get connected with the appropriate resources and services.

**Why are you applying to the ASI Board of Directors? What do you hope to accomplish and/or get out of the experience?**

I am applying for ASI Board of Directors because I want to take part of providing opportunities for students in my academic college.

By being apart of ASI Board of Directors, I hope to gain student leadership experience by being involved within ASI and its functions.

I also want to accomplish by allocating enough funds appropriately for the Health and Human Development College clubs and organizations.

**Please state any other information that you believe should be considered in this application.**
One of the three most important strengths of mine is my interpersonal skills. I have worked with a variety of people with different types of personalities – which has given me the ability to learn how to interact well with different groups of people. The interpersonal skills will allow me to have the chance to connect with the prospective students and help them understand more about what the campus can offer to help fulfil their academic needs. Another one would be that I am a flexible person. Usually I am a person that has a plan and follows through, but I know in some cases I have learned to always “come prepared.” Hence, I always have alternative plans in case where situations don’t go as planned that I’ll still be able to get through and accomplish my goal. This will be helpful in this position because I am able to adapt and adjust with a positive mindset with changes I may encounter. Lastly my third strength would be that I am a diligent individual. I have gained strong work ethics in which has helped me shaped a mentality that whatever I start off, I must bring it towards the finish line. Regardless of the predicaments I may face, I am always determined to do my best and to accomplish my goal. As cliche as it sounds, I believe if “there’s a will, there’s a way.” This trait that I have acquired will help me be determined to accomplish my goals and tasks within the leadership position.

What do you believe is the role of ASI on our campus and how does that role relate to this position? *

I believe the role of ASI on our campus is to represent the students and staff on our campus and make decisions with the purpose of enhancing the titan experience for all in a positive way. I believe this role relates to this position because students on the ASI Board of Directors are faced with the challenge of representing the students and staff that are affiliated with the college in which they represent. Students on the ASI Board of Directors make decisions that affect those in the college in which they represent with the students' best interest always in mind.

Tell us about any relevant past involvement or work experience that you have and how it will help you as a Director for your college. *

In high school I was a member of the student government for all four years I was there. My first two years of high school I was a class officer representing the students in my graduating class. My first year I served as the freshman class ambassador and my second year as the commissioner of technology. In my third year I was elected by the students as an executive officer representing all students and staff as the ASB Executive Ambassador. In my senior year I was elected by the students as the ASB Executive President where I represented the students and staff by leading council meetings, approving paperwork for clubs and organizations on campus, and serving as a student board speaker representing my school at monthly district board meetings. My experience in student government and as a representative for my high school will help me as a Director for my college in that I know how to effectively communicate with the students I represent and serve as a liaison between the college and the Board of Directors to address the needs of the constituents of my college as necessary. I also played soccer for three years and was captain in my last year and ran cross country for three years where I worked hard to improve my times and motivate my teammates to do the same. Playing sports in high school really taught how to be a part of a team and how important it is that everyone know their role and work together to achieve a common goal. This experience will help me as a Director for my college in that I will effectively work together with those in my college and those on the Board of the Directors to achieve a common goal.

Why are you applying to the ASI Board of Directors? What do you hope to accomplish and/or get out of the experience? *

I am applying to the Board of Directors because I feel I can contribute strong leadership to my college and do what's best for the students in my college. I believe my experience in student leadership will help
me represent the needs of the students in my college with their best interests in mind. I personally hope to gain a positive experience out of representing my fellow peers. I hope to move the college and school in a positive direction and ultimately make everyone's experience here at Cal State Fullerton unforgettable and one of a kind.

Please state any other information that you believe should be considered in this application.

* In all my experience in leadership what I love most is getting to know everyone on my team and make every stressful, challenging moment one where we can grow more as individuals and discover things about ourselves we previously didn't know. I hope to gain this positive experience with those on the Board of Directors and the students in my college should I earn the privilege of serving on the Board of Directors.

What do you believe is the role of ASI on our campus and how does that role relate to this position? *  

I believe the role of ASI on our campus is to advocate and delegate the students and the college as a whole. ASI also created opportunities for students to govern, work, network and provided student enrichments on campus. The role is related because being a director of my board I am representing the students and essentially act as their voices.

Tell us about any relevant past involvement or work experience that you have and how it will help you as a Director for your college. *  

As an assistant property manager in real estate, I have learned that it is imperative for me to have effective interpersonal communication in a professional manner at all times because I am delegating my vendors and the company I worked for. A skill that I believe is necessary and will help me as a Director of my college because being a director means that I will also be representing the students and my colleagues. Another experience that I have dealt with are working with a team to ensure that we have successful open houses, often times serving hundreds of people at one property. I was also responsible for the rental contract, payments, financial book, disputes resident’s question or problems, weekly and monthly reports, etc. These experiences have taught me skill sets that I also believe could be valuable assets to me being a Director. Since a director at times will be required to collaborate well with others, organize, creative problem solving, and a passion for learning and helping others.

Why are you applying to the ASI Board of Directors? What do you hope to accomplish and/or get out of the experience? *  

I am applying to the ASI Board of Directors because I want to be more involved on campus and gain new experiences. Due to jobs, classes, commuting and family duties, I was not involved on campus during my past years as a student at CSUF. I also had difficulty fitting in on campus and not knowing what my goal(s) were. Throughout the years, I have realized that I do have an adept desire to help and guide others. I hope that the position of being an ASI Board of Director will help me further grow my leadership skill, improve my personal development, chances to network, enhance my learning experiences from fellow cohort and gain insights into the work of being a Director. In addition, I want to make a difference during my last year at CSUF and not having any regrets by not taking this opportunity to become more actively involved.

Please state any other information that you believe should be considered in this application. *

Besides from being a student and working part time jobs, I liked to go hiking, taking care of my pets, watching movies and immerse myself in animal videos. I am also a green belt martial artist in Shotokan Karate.

Finally, I would like to apply for the position of being a representative of College of Health and Human Development.

Thank you for your consideration.

The role of ASI on our campus is to ensure that students' voices are heard, bring students together through community events, as well as govern the student body here at CSUF. The Board of Directors position allows each ICC to have their needs voiced and addressed at ASI board meetings.

I am a current Member at Large for the HHD-ICC and I have over one year of leadership experience here at CSUF. I was given the chance to be a peer mentor for new Health Science students. This gave me the opportunity to learn about various resources available for students as well as gain some knowledge of the clubs and organizations on campus for HHD students. In my freshman year, I was a resident of the themed HHD floor in our housing community. This allowed me to learn about the different HHD majors and also what may be a primary interest for members of each major.

I am applying to the ASI Board of Directors in order to gain more leadership experience here at CSUF. I feel that the more involved I am, the better my experience will be here and it will also prepare me for leadership positions I may obtain in the future. If I am selected for this position I feel that I may be able to assist in making the CSUF experience great for not only myself, but also many other students within my college.

I work well with others, am very punctual as well as attentive. If afforded this opportunity I will be more than grateful to represent the college of HHD.
Associated Students, CSUF, Inc. Voluntary Authorization for Educational Record Disclosure

University Policy

University policy prohibits the release of personally identifiable information from the educational records of students without their prior written authorization. Exceptions to this policy include: a) release of such information to a specified list of officials with legitimate educational interest in the record, b) the release of such information in response to a court order, health or safety emergency, or approved research project, or c) the release of public directory information which has not been previously restricted by the student.

What do you believe is the role of ASI on our campus and how does that role relate to this position? *

Tell us about any relevant past involvement or work experience that you have and how it will help you as a Director for your college. *

Why are you applying to the ASI Board of Directors? What do you hope to accomplish and/or get out of the experience? *
get more involved on campus. With this opportunity, I hope to gain
relationships and network with other students, become more
involved in student life, and sharpen my leadership, public speaking
and marketability skills.

Please state any other information that you
believe should be considered in this application.

I should be considered in this application because I have skills and
eligibility requirements for what it takes to be an ASI Board of
Director. I am a very responsible and punctual person and I know I
will be able to provide well thought suggestions and schemes
regarding activities, events and campaigns for the HHD department.
Conclusively, I know I will be able to deliver and go above and
beyond my duties starting from day one.
