**What do you believe is the role of ASI on our campus and how does that role relate to this position?**

ASI provides students with opportunities to be successful, get involved, and have fun on our campus. It gives students the chance to make the most of their college experience through activities and programming as well as avenues of recreation through our TSU, SRC, and Irvine Fitness Center. In addition to that, ASI has many other functions and departments— from the executive down to the committees, it houses many students and staff and gives them a chance to contribute their skills to make a difference in various capacities on our campus and within the organization. ASI serves as a link between our student body of 40,000 and executive office through student government. The role of ASI is crucial because it contributes to the well-being of our students as well as the campus culture.

Through student government, members of the Board of Trustees will be able to represent student interests in ASI and work to improve the quality of our facilities and services. With the new TSU and with improvements to be made in all areas of the ASI facilities, the BOT is a necessary branch which was created to make important decisions in these specific areas.

**Tell us about any relevant past involvement or work experience that you have and how it will help you as a Trustee?**

Before I was elected to the Board of Directors, I worked with ASI in Titan Student Union’s University Conference Center as one of their 3 clerical assistants. I had gotten to know some of the function and roles of the building managers, Information Desk, Titan Bowl and Billiards, Building Engineering, Operations and Management, Student Life and Leadership, Marketing and Outreach, and of course, the Conference Center. During my time as a clerical assistant, I really enjoyed getting to know the staff and students who worked in the TSU, and the TSU was my second home for the entire year, so as you can imagine, I have had the chance to get to know that building pretty well. In addition to meeting and getting to know the people in the TSU, I have also gotten to know how the rooms are
rented out and the people from both on-campus and off-campus organizations who booked out rooms.
In addition to knowing the TSU pretty well, the other facility which I often use is the Student Recreation Center. I go there often, at least once a week, although I shoot for 3-4 days a week. I absolutely love the SRC and the programs and services that it provides. I especially enjoy the fitness classes. I think it is a wonderful resource for our students to use, and I definitely want to help contribute toward providing quality programs and services in the upcoming year. I was really impressed by the revamped cardio studio upstairs, and I hope that I continue to help make contributions which will further enhance our students’ experience of the SRC. I am also familiar with some of the staff who work in the SRC, and I think that could help with me gathering information about how we can best support our students’ needs.

Why are you applying to the Titan Student Centers Board of Trustees? What do you hope to accomplish and/or get out of the experience? *

Since I transferred to CSUF from a community college in Sacramento, my eyes have been opened to the vast amount of opportunities, resources, and support that ASI provides. I am exceedingly impressed by the quality of our ASI, and although it will be a challenge, I want to help contribute to ASI's continued success and work to improve the student experience through being on the Board of Trustees. In addition, I believe that being on the Board would be a wonderful experience where I can continue to learn new skills and develop as a student leader. I want to make positive impact in the lives of all of our students in this last year of my undergraduate career. As a Human Services major with a concentration in Administration and Community Practice, a career goal of mine is to work for a nonprofit or government organization to create quality programs which would benefit people in my community. Through being on the BOT, I would have the opportunity to learn more about what it means to sit on a board as well as the behind-the-scenes process of program planning and implementation.

Please state any other information that you believe should be considered in this application. *

I was originally elected to the Board of Directors as a representative of the College of Health and Human Development. However, due to scheduling conflicts between another organization that I am a part of, the BOLD Women's Leadership Network, I am no longer able to make the Tuesday Board Meetings. I still greatly want to be involved with ASI in a significant capacity, and I think that the BOT will be the perfect place for me. The meetings fit perfectly within my already-solidified Fall schedule, and through my qualifications, I think I would make an excellent addition to the BOT. I appreciate your time and consideration.

What do you believe is the role of ASI on our campus and how does that role relate to this position? *

I believe the role of ASI on campus is to give back to the students as well as making sure that the school's programs and services are serving the student body. The Board of Trustees role that relates to ASI falls under both parts of ASI. The Board of Trustees listens to the concerns of the students and acts on what is believed to be the best solution that will better the students experience at CSUF. By listening and adapting to the needs of the student body the Board of Trustees is able to give back to the students better programs and services and enhance the students experience at CSUF.

Tell us about any relevant past involvement or work experience that you have and how it will help you as a Trustee? *

Throughout the year I participated in Street Team, Student Alumni Ambassadors, Titan Tusk Force, Camp Titan, as well as many other events held around campus. In all those events I got to interact with the student body and assist them with whatever they needed. By interacting with the student body in this previous year, I will be better equipped to be a liaison to the Board of Trustees for this upcoming year. My participation in the various events at CSUF also helped me learn how to communicate with the various types of students which will help me understand what the student body needs.
Why are you applying to the Titan Student Centers Board of Trustees? What do you hope to accomplish and/or get out of the experience? *

I am applying to the Titan Student Centers Board of Trustees because I would like to get involved with ASI as well as learn how the Governing Board of ASI works. What I hope to accomplish is to be able to bring the student body what they need through better programs and services throughout this upcoming school year. What I hope to get out of this experience is more knowledge on how the governing side of ASI works and how it helps with giving back to the students as well as how the students contributions help ASI.

Please state any other information that you believe should be considered in this application. *
