

Activity Share: Bird Watching Tally

Age group: Preschool age

-Visit your local park, Arboretum, or simply take a walk outside and observe birds in your area.

-Make a tally mark for each type you see - *sitting, walking, flying, or swimming!* When you are finished bird watching, add your tallies up and write the total number in the box.

Tally activities are a good way to incorporate math and classification skills for young children.

Bird Watching Tally

Visit your Local Park or Arboretum and go on a Bird Watching Hunt! Tally what you see – *birds that are sitting, walking, flying, or swimming.* Add your tallies up and write the total number.

Description	Tallies	Total
 Sitting		
 Walking		
 Flying		
 Swimming
