### Announcements/Members Privilege

Francisco introduced herself and shared that she was looking forward to working on the Board during the upcoming year.

Allen congratulated the Board and shared that they were doing a great job. She encouraged the Board to be ready to take action when times are presented. She shared that she will be scheduling meetings with each of them in the coming weeks.

Dadabhoj shared that she felt the meeting went well. She informed the Board that she will be in and out of the office and she encouraged them to stop by anytime.

La shared that August 17<sup>th</sup> is Freshman move-in day at CSUF. He indicated that there are volunteer opportunities and if any Board members volunteer to wear your ASI gear.

Borjas shared that he is in the midst of RA training. He is hoping to connect the Housing area with ASI. He indicated that he will do his best to communicate what ASI does and vice versa.

Sherman shared that Friday will be the summer symposium for the college of NSM. The symposium will showcase work that students completed during the summer. He invited the Board to attend and shared that this event is a great way to reach out to NSM students to share what ASI is all about.

Jakel introduced Dean Hallie Hunt and asked her to share with the Board. Hunt shared that she has been on campus one month and she is excited to be here. She let the Board know

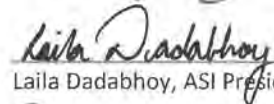

that she is a resource and advocate for students. Specifically, her office is working on food and housing insecurity. She further shared that the Dean of Students office is a resource for faculty and staff if there are identified issues. Additionally, student conduct and NASPA are handled through her office. One of her goals is to help improve professionalism within the student community.

Jakel requested that Board members meet at the Board office to review questions and to discuss the upcoming leadership retreat.

#### Adjournment

Jakel adjourned the meeting at 10:30 a.m.

<b>What do you believe is the role of ASI on our campus and how does that role relate to this position? *</b>	The role of ASI on the campus is to advocate for the students, provide students with best possible learning conditions, and to provide students with a way to be involved on campus. This position relates to these three things because an ASI Director needs to be the connection between ASI and the colleges. This means as a Director

you need to be able to receive and relay information that could potentially provide a voice for the student body.

**Tell us about any relevant past involvement or work experience that you have and how it will help you as a Director for your college. \***

At CSUF I have been involved in lobby corps and camp titan. Both of these things have exposed me to having a leadership role on campus. Lobby corps has also shown me how to advocate for the student body and communicate a clear message on our plans for the schools future. I am also a founding member of the biotechnology club on campus and have been a member of the NSM ICC for a semester. Being a member of the NSM ICC has given me a look inside at how the system works and shown me how ASI and the colleges communicate. Outside of CSUF I have worked at Pizza Hut and was recently hired at Chick-Fil-A both of which are jobs with a lot of independence and responsibility.

**Why are you applying to the ASI Board of Directors? What do you hope to accomplish and/or get out of the experience? \***

I am applying to the ASI Board of Directors because I want to be a voice for the student body of my college. Many times in my experience there has been things that I wanted to improve in my college and I did not have the power to do anything, so with this job I would have more of an impression on what goes on in my college. From this experience I would like to leave with more leadership experience, so that i may continue too advocate for the student body.

**Please state any other information that you believe should be considered in this application. \***

I recently helped with the ChooseCSU campaign and have worked closely with many members of ASI.

**What do you believe is the role of ASI on our campus and how does that role relate to this position? \***

I believe that ASI is pivotal in the development and promotion of the student community at CSUF. The role that ASI as a whole, plays in the function of this institution, is that it not only allocates funding to clubs, organizations, and facilities

like the Children's Center, but it also is the gateway into involvement on campus. This ties into the role of the ASI Board of Directors because this is one of the leadership positions that allows students to learn about creating and implementing policy and how to advocate students' interests. Being able to be a part of the Board is both an honor and a privileged because that student is one of two that can advocate on behalf of their college and speak for those that feel that they do not have a voice.

**Tell us about any relevant past involvement or work experience that you have and how it will help you as a Director for your college. \***

The involvement that had initially lead me into a stronger leader was being a camp counselor for Camp Titan, it was one of my first leadership roles and it challenged me in more ways than I could have imagined at the time. Because of that experience, I was able to step outside of my comfort zone and place myself into the shoes of students that often acted out not due to malice or ill intent. From this better understanding of underprivileged populations and how to make a positive impact on their lives, I pursued becoming an Orientation Leader for CSUF. As an Orientation Leader, I was challenged by having to learn about everything this university had to offer and be an advocate for student involvement and engagement. During that role, I has given the opportunity to work with the Assistant Dean of the college of Health and Human Development, AD Bockman, and they encouraged me to become involved in HHD-ICC as a member-at-large. From this position, I was a ble to learn more about how funding is allocated to clubs and organizations, and more about the regulations that ASI has to abide by. Another role I partook in was being a member of the Faculty Research Policy Committee. I was able to see how policy was written and better understand the issues and struggles faculty faced, especially when it pertained to research funding and intellectual property. After both my position in HHD-ICC and the FRPC ended at the completion of the semester, I applied to become a Student Coordinator with the Outreach, Recruitment and Orientation Department on campus to continue on with helping students and giving back to the university. I am currently working in this position during this Summer 2017's Orientation, but I have been able to learn about program development, how to work as a paraprofessional overseeing the Orientation Leaders, and how to facilitate team building and leadership training. From all these different leadership roles and experie nces both within ASI and within the university itself, I feel that I have been able to expose myself to many different facets of the inner workings of CSUF that can help give a new perspective into how to best help the student body resolve potential issues that may be faced.

**Why are you applying to the ASI Board of Directors? What do you hope to accomplish and/or get out of the experience? \***

When I first entered into CSUF, I wanted to reinvent myself from the reclusive and shy student I'd been throughout high school. The first involvement that was shown to me was ASI Street Team and I was involved in the weekly meetings, ASI Block Party, and at learned how to become further involved with ASI. Without ASI being my first involvement on campus,

I don't think I would be where I am today. Out of this experience, I want to learn more about how to advocate on behalf of myself and my peers. I want to be able to give back to the student government that has given me so many opportunities and helped further my growth at this university in so many different ways.

**Please state any other information that you believe should be considered in this application. \***

I have been given the opportunity to attend the NODA II Regional Conference on behalf of CSUF, and was able to learn about how leadership training is conducted at other institutions across California.

I am heavily involved in research at CSUF, I was part of the BD3-REAP program studying health policy in the department of HHD and I am planning on researching Science Education in the department of NSM.

I am currently in the process of completing the paperwork necessary to declare my Minor in Chemistry. Due to work, I have been unable to complete it sooner, but it should be completed shortly and I apologize for the delay.

**Peer Mentor for the First Year Experience Program**

- Provide a safe space to students that struggled with adjusting to college
- Assist the professor in classroom discussion facilitation
- Acting as a mentor and role model to first year students

**Faculty Research Policy Committee**

- Insight into how policy is made and passed
- Involved in the review and revision process of university policies that affect CSUF faculty

**HHD-ICC Member-at-Large**

- Allocate funding to different clubs and organizations
- Vote on passing or revising portions of the HHD-ICC constitution

**Camp Titan**

- Help enrich the lives of students
- Insight to the hardships that students from underserved communities face

**Orientation Leader**

- Directly with professional staff and faculty to ensure orientation ran smoothly
- Assistant new students, international students, and transfer students in their navigation the campus, what resources are available, and answer any questions they may have.

**Student Coordinator**

- Experience and program development and facilitation of training
- Supervise and direct a team of orientation leaders
- Ensure that our staff are confident in their knowledge of the campus before they begin representing CSUF

I hope to help students by giving them a voice in matters related to the college of NSM, in the student government, and the University. A goal that I have for myself is to use my knowledge of the campus and my experiences to help better give a new viewpoint to possible solutions and resolutions. I want to assist in the betterment of the college experience of my peers and be involved in that process.

<b>What do you believe is the role of ASI on our campus and how does that role relate to this position? *</b>	I believe the role of ASI is to enhance the success of students at CSUF while providing services to them that would aid in their education.  More specifically for board of directors it would be enhancing a specific college and trying to tailor the services available to the students in that college.

**Tell us about any relevant past involvement or work experience that you have and how it will help you as a Director for your college. \***

I served as president of a club on campus called Inter-Tribal Student Council (ITSC). Serving as a leader for this club has trained me in dealing with ICC meetings and how to do outreach for collaborations. Another part of being a leader of ITSC was for me to communicate with many departments in CSUF such as ASI, Women's Center, University Advancement, and Student Life. These skills all help towards me being an effective Director for the College of Engineering.

**Why are you applying to the ASI Board of Directors? What do you hope to accomplish and/or get out of the experience? \***

My reason for applying to ASI Board of Directors was to become closer to my college and start working with fellow ECS students. I want to be able to form connections and build relations with the college from this experience.

**Please state any other information that you believe should be considered in this application. \***

I am well aware of the responsibilities for the position as I ran for election for ECS Board of Directors this past Spring.

- Commissioner
- Team Member

Tell us about yourself (tell us about your background, your past experiences, and what makes you who you are; include any information that you think appropriate and important for us to know): \*

Hi, my name is William Cabral, and I am a second year here at the California State University, Fullerton. I am currently majoring in Kinesiology and I plan on pursuing a career in occupational therapy and later plan on working with children that have special needs. I enjoy traveling, over the past couple of years I was fortunate enough to travel to Europe and visit different countries such as Spain, Italy, and Greece to name a few. I enjoyed being in another country, learning the different cultures and backgrounds of others, and stepping outside of my comfort zone. In high school, I was involved in a student government and held a variety of positions, such as athletics commissioner, class officer, and special events coordinator. In college, I involved in the kinesiology student association, and currently serve as the treasurer for the current school year as well as for the next school year.

Tell us what you think the purpose of our ASI Elections group is and why you want to be a part of ASI leadership (tell us why you think ASI does what it does, what you hope to get out of the experience, and what you hope to learn): \*

To me the purpose of the ASI Elections group is to ensure that all students have an equal opportunity to cast a ballot in what/who they believe in as well as make sure that all students are educated on their upcoming elections such as who is running, when voting takes place, voting location etc. Also, to make sure students who are interested in running for an office position feel comfortable to ask a team member for help, or go to them with any questions they may have. I want to be a part of ASI leadership because I want to make more of my college experience, I want to look back at my college years and remember all the great memories I made because I was so involved with my campus, just like in high school. I want to experience new things while in college, interact with people from all different backgrounds and get more knowledge behind the governing side of school. ASI does what it does to ensure that students feel that their concerns are being taken care of, that students can rely on ASI to be the voice for them, and that students can make amazing memories that will last them a lifetime. What I hope to gain is more love for my school and better leadership skills that can benefit me in the future, not only in school but also after I finish school. I hope to learn more information on how ASI advocates for students.

Commissioner Applicant Question: Tell us how you would direct, support, manage, and oversee the ASI Elections team and program and about any related experience you have that you think qualifies you for or would help you be successful in the position \*

If given the position of election commissioner I would ensure that my team and I have superb communication skills and trust one another, so that we are all on the same page, because that is key in ensuring a successful outcome. I am extremely organized and have no problem taking charge in situations when it is necessary. I would love to make great bonds/friendships while serving as this position but I feel that it would be important to draw a line between work and

fun and I would make sure that my team is aware of that as well. I would make sure that my team stays up to date on all important information, such as important dates, responding in a timely manner to those who need assistance as well as support one another when needed because it is important to have faith in your team, if give a sense of ease knowing that you can turn to someone for help when you need it. The experience that I have is my leadership involvement in high school serving as a commissioner as well as holding an office position would be of great benefit to me for this position since I already have a familiar idea of how things will work. Along with my experience back in high school I feel that my position on the executive board for the kinesiology student association is also a benefit because I have had experience talking in front of crowds during meeting, as well as have professional meetings with my executive board members.

---

**Team Member Applicant Question: Tell us about any related experience you have that you think qualifies you for or would help you be successful as a team member with ASI Elections \***

In high school, I was involved in student government and held different positions ranging from sports commissioner, special event commissioner and class officer. In those positions, I was responsible for keeping myself organized, keeping track of important dates, speaking in large crowds, making sure people were doing what was expected of them, and hosting special events. In college, I have served two years on the executive board for the kinesiology student association and I am about to serve my third for the upcoming school year. I was events coordinator my first year and I am currently the club treasurer and will be serving as treasurer again next school year. I was responsible for planning events such as our annual Hollywood hike, and getting into contact with professionals in the kinesiology fields and getting them to come out and speak during club meetings. Currently I am responsible for raising funds for our club and ensuring that money is budgeted properly and we are not over spending. I believe these experiences that I have had would make me a good candidate because through all this experience I have learned to be responsible which I feel is an important trait for this position. Also, I feel that I have had a good number of years of leadership experience which would be of great benefit for me if selected for this position.

---

**Describe the ideas or goals you have for next year for ASI Elections \***

What I hope to accomplish as a member of the elections team is a larger number of students voting in elections. I know that this is a common goal for many applying for this position but I truly believe it is something that I can change, I believe students need to be more informed about how voting in elections benefits them, and how it is a very fast and easy process. I would also like to see more students getting involved in election activities such as being able to meet candidates on a more personal basis and getting more students to head out to debates that are hosted for elections. I would like to ensure that students are aware of who their election team consists of and what responsibilities they have. I feel that is important because students should be informed on who their student leaders are, and they should feel comfortable enough to come up to a student leader on campus and ask them about a question they have whether it be about an upcoming election or any other ASI related question.

---

**Describe how you would promote the activities and events of ASI Elections \***

As a member of the election team I would try my best to promote activities through various social media platforms such as email, twitter, Facebook, etc. I am sure that this is a common strategy for the promotion of activities but I feel like in this day in age it is the most effective. Also, a new idea that I would like to implement would be the use of Remind, which is an app that sends out a mass text message in a simple way, now I am sure that most students would be hesitant to getting text message updates about school but it does not hurt to try it out. I think it would also be a good idea to make short little commercials in regards to upcoming events, it can just a quick 30 second video on all upcoming activities for the week or even for the month. These short commercials can highlight the upcoming elections or high light the candidates running so students are aware of their candidates.

---

**Tell us about other commitments and involvements you have planned for summer and next school year (tell us about clubs, organizations, and campus programs you are involved with, other leadership positions you have accepted or are applying for, plans for study abroad, jobs, internships, fieldwork, etc. that will be on your plate. ASI leadership is a big commitment and we want**

Currently I am involved in the kinesiology student association, which does have certain commitments during the summer but this should not conflict with any of the dates that were posted above for ASI training. I also have a part time job at target where I do customer service, target is already aware of my involvement on campus with my club and they always try to accommodate me to the best of their abilities, as long as I am able to give them enough times notice for any time off I may need it should not be a problem and I should be able to commit to the position and any necessary training.

to make sure you will have time for this involvement): \*

Tell us about yourself (tell us about your background, your past experiences, and what makes you who you are; include any information that you think appropriate and important for us to know): \*

I am a senior Civil engineering student interested in becoming more involved with campus affairs, and a strong supporter of student rights. As a transfer student, I've encountered students from all stations in life and understand peoples motivations vary. I have excelled in fast paced office settings and developed effective communication skills I now apply to my construction management internship.

---

Tell us what you think the purpose of our ASI Elections group is and why you want to be a part of ASI leadership (tell us why you think ASI does what it does, what you hope to get out of the experience, and what you hope to learn): \*

I believe the ASI Elections group is both an administrative and outreach group that manages both the operations of student elections and is also responsible for encouraging and educating students about student government participation. I hope to learn about my university's programs and policies and apply the leadership training I received from my current employer to create positive change during the final year of my undergrad degree.

---

Commissioner Applicant Question: Tell us how you would direct, support, manage, and oversee the ASI Elections team and program and about any related experience you have that you think qualifies you for or would help you be successful in the position \*

To collaborate cohesively, I would first learn about the needs of the program and ensure I understand the role of my teammates. Then collectively, we would set clear and attainable goals and break these into manageable tasks to be completed within a specific timeline. Being a busy engineering student, I learned to manage my time. Construction Project management has prepared me to oversee multiple aspects of a project within a budget and on strict schedule.

---

Team Member Applicant Question: Tell us about any related experience you have that you think qualifies you for or would help you be successful as a team member with ASI Elections \*

In my work with a supplemental education company, I served as both a team member and later a team leader. In both cases, being goal oriented has helped me achieve impressive enrollment increase results. As a volunteer coordinator for Casas Guanajuato, I recruited and organized student volunteers to advertise and then lead bilingual community computer classes. We were able to motivate both students and the general public to participate through personal interactions and demographic specific incentives and I believe this can also be effective for elections.

---

Describe the ideas or goals you have for next year for ASI Elections \*

I was one of the student that did not participate in the elections simply because I minimized my time on campus and was not informed. Many students commute and cannot actively participate in on campus events. Making election information easily accessible and quickly digestible

would empower students to make the minimal effort to formulate and share their opinions.

---

Describe how you would promote the activities and events of ASI Elections \*

Both digital outreach and personal interactions are critical to informing students and developing a sense of significance. Students are not aware of the impact ASI elections have on them and sharing clear and specific examples of positive change should motivate students to vote. We can also appeal to their sense of pride and community with college competitions, CSUF merchandise, prizes, social media recognition campaigns.

---

Tell us about other commitments and involvements you have planned for summer and next school year (tell us about clubs, organizations, and campus programs you are involved with, other leadership positions you have accepted or are applying for, plans for study abroad, jobs, internships, fieldwork, etc. that will be on your plate. ASI leadership is a big commitment and we want to make sure you will have time for this involvement): \*

I am working full time as a Project manager intern during the summer and will be attending classes full time Fall 2017. I have participated in ASCE and plan on participating in the Concrete canoe project this upcoming school year. During the Spring 2018, I anticipate having a light class load. I feel I can manage the duties this position requires.

Tell us about yourself (tell us about your background, your past experiences, and what makes you who you are; include any information that you think appropriate and important for us to know): \*

I am a second year Communications major with an emphasis on Entertainment and Tourism. I am very involved on campus and enjoy growing with every new opportunity. I am a part of two clubs on campus; one is more focused on my major called Entertainment and Tourism club, the second is a cultural club called Pilipino American Student Association. I also served as an orientation leader for the summer of 2016 and am currently serving as a student coordinator for the summer of 2017. I have also volunteered with ASI Street Team. I also participate in intramural sports for volleyball and basketball at the student recreational center.

I am a very charismatic and dedicated person. I take pride in the organizations and positions that I am apart of. I enjoy meeting new people and listening to the different types of stories that come along with them.

Tell us what you think the purpose of our ASI programming groups is and why you want to be a part of ASI leadership (tell us why you think ASI does what it does, what you hope to get out of the experience, and what you hope to learn): \*

The purpose of the ASI programming groups is to enhance a student's time here at CSUF. Each ASI position has something different to offer and bring to the table for CSUF students. For example ASIP provides CSUF students with entertainment such as music, movies, performances and more. TTF tries to connect students more to our campus by providing events that enhance school spirit and accentuate our athletics. AICA enhances our student life by teaching our students the importance of diversity since CSUF is one of the most diverse campuses in the CSU system.

I want to be apart of ASI leadership because I would like to be a part of the group that is able to plan new events for students making their time here at CSUF more exciting. I've enjoyed volunteering here and there with ASI Street Team

and I would like to be able to be involved on a higher level.

I hope to attain a broader sense of event planning as well as enhancing my leadership skills.

#### ASI Productions Essay Question (address each area in your response)

- Tell us why you think it is important to have on-campus entertainment events at CSUF (Fullerton and/or Irvine campuses)
- Tell us the position(s) you are most interested in and about any related experience you have that you think qualifies you for or would help you be successful in the position(s)
- Describe the ideas or goals you have for next year for the position(s) you are most interested in
- Describe how you would promote the activities and events of ASI Productions and the position(s) you are most interested in \*

It's important to have on-campus entertainment because it allows students to have a bigger sense of pride in their school. It allows them to enjoy their time here at university on a broader sense, because it adds more to their student life than just going home and studying. Students are able to feel more connected to their campus because they see that the university is trying to reach out to their interests.

I am interested in the Union and Special Programming series because I would like to be able to help plan events that allow for me to grow in a creative event planning sense. I believe the position that I currently hold as a student coordinator helps to qualify me for the position because I am currently tasked with coordinating and planning to help with specific events for orientation at CSUF.

Certain ideas that I believe would be a good idea to incorporate for the position are, Neon Laser Tag (I always enjoy the USP laser tag events), having a flashback/ birthday party event that allows for us to provide a childhood sense of activities (such as providing jumpers, pinata, and etc.), and also a circus event that allows for us to have a mini circus event on campus ( providing a petting zoo, small magic show, and etc.).

I would promote these activities by tabling throughout campus and advertising the events through social media.

School spirit is important at any school because it allows for the students to feel more connected to their campus. When students have a sense of pride in their school they are more likely to enjoy their time there. When students enjoy being on campus they are more likely to stay and attend events rather than just attending class and going home.

I am interested in applying for a TTF position because I believe I have a strong sense of CSUF pride and would like to be able to give back to the campus community by getting involved in a position that allows me to express my pride. I like to plan events and would bring a creative twist to how every event is planned as the events coordinator. For the athletics coordinator, I enjoy attending the sporting events here at CSUF and see them as a great opportunity for students to exercise their sense of pride. As the marketing coordinator I can come up with new creative ways to market the events to students on CSUF, such as tabling, social media, coming up with different types of ambient ads that are within budget and more.

Throughout the summer I will be working New Student Orientation here at CSUF. As for the next semester I still plan to be apart of the two clubs that I am currently apart of, PASA and ETC. Both clubs are very lenient with time and allow me to have flexibility in my schedule.

Tell us about yourself (tell us about your background, your past experiences, and what makes you who you are; include any information that you think appropriate and important for us to know): \*

My name is Lauren Olguin and I'm going to be a Junior next Fall. As a COMM student, I've always had a passion for sharing my story with others and utilizing my creativity to create experiences for others to enjoy. I've always believed that it is important to be fully committed and involved in whatever you chose to do, to ensure that you gain the most from each experience. My persistence, organization as well as passion for creating communities with others has led me to be involved with many different organizations and events on campus. I have volunteered for all Spring Concerts since starting CSUF in 2015 and it has opened my eyes to what can be possible if you network and work hard. As an Executive Board Member for the Entertainment & Tourism Club, I have come to realize the important of community and getting involved in the things you feel passionate about. Being involved in these two organizations have helped me become the young professional that I am and encourage me to pursue my goals academically, professionally, and personally.

Tell us what you think the purpose of our ASI programming groups is and why you want to be a part of ASI leadership (tell us why you think ASI does what it does, what you hope to get out of the experience, and what you hope to learn): \*

I think the purpose of ASI programming groups is to bring easily accessible, low cost/free entertainment for students to give them an opportunity to relax as well as enhance their experience at CSUF. Seeing the excitement of students for Spring Concert has encouraged me to get more involved with ASIP. As the Thursday Concert Coordinator I hope to gain real experience in talent booking, planning events on a larger scale as well as marketing an event effectively.

-I think it's extremely important to have on-campus entertainment events at CSUF because it gives students a break in their day to relax. Many students are often bogged down with school, work and other extracurriculars so it's important to give them the option to focus on other things besides their commitments. Having on-campus entertainment creates an amazing opportunity for students, they don't have to pay money or go anywhere far to have a good time and enjoy entertainment.

-The position I am most interested in is the Thursday Concert Coordinator. As a volunteer for the 2016 and 2017 Spring Concert, I was able to obtain the skills to help run an event smoothly in a fast-paced environment. Also, as a talent escort for the 2016 Kids Choice Awards, I gained experience in how a large-scale production for a major awards show is run and what to expect. Interacting with celebrities and crew alike, it was important to maintain an air of professionalism and clear and concise communication. Being on the Executive board for the Entertainment & Tourism Club (ETC) has taught me how to plan and execute events while being a part of a team as well as how to communicate with professionals in the entertainment industry and beyond.

-One goal I have next year for the Thursday Concert Coordinator is to increase attendance at each concert as well as book artists that students would like to perform. Since our campus is so diverse, it's important to try to cater to as many people as possible so that ASIP is more inclusive to everyone.

-Through my time as the Community Involvement Coordinator for ETC I found that the best ways of promoting events was through social media but more importantly face to face. Tabling caught the attention of people who never would

have thought of or had never even heard of our event. Something we also experimented with was classroom announcements to the COMM Entertainment classes which drew in some more students to our events as well.
