**Tell us about yourself (tell us about your background, your past experiences, and what makes you a good candidate for the position; include any information that you think appropriate and important for us to know): \***

I'm a first-generation Muslim, Somalian immigrant and college student. I immigrated to the US when I was 3 years old with my mom, dad and my brother. Everything I do is to make my parents proud. I want to demonstrate to them that their sacrifice was worth it so every time I struggle, I persevere in their name. When I was growing up, I created one lifetime goal. I wanted to be able to retire my parents. So from that moment until now I have been striving for that goal. Whenever I fell behind in school I reminded myself of my mom and dad then struggled for them. I stayed afterschool working with teachers, reading more, writing more, practicing math more. Then when I reflected on my K-12 academic journey, I saw that it began miserably. I was at the bottom of all my classes on all subjects. But I ended my journey top of my class with four years of honors, acceptance to university, and a scholarship.

In addition to this, I began my college journey with plenty of leadership experience. I have been the president and vice president of various clubs such as the Black Student Union, Mock Trail, and Pals for Paws. I know that a leader is someone who demonstrated by example, who sees themselves as an equal to his team, and carries an ethical obligation to care for his team's well-being.

It is the combination of these aspects, my unwavering commitment to my family and my team that makes me the ideal candidate for the PAC role. Everything I do is for my Titan family and my biggest concern will always be am I doing the best I can for them.

**Tell us what you think the purpose of our ASI student government is and why you want to be a part of ASI leadership (tell us why you think ASI does what it does, what you hope to get out of the experience, and what you hope to learn): \***

I believe the purpose of ASI to be the holistic development of our Titan family. By providing professional opportunities for growth through various ASI student leadership positions. Or opportunities for Titans to bond with each other through social events such as the Spring Concert. Or sparking cultural awareness and social justice through AICA. I believe ASI's motivation to provide all these vital resources stems from a deep passion to craft the best college experience possible for our Titan family. Although four years sounds very long, our time together flies by. And it's very easy to fall into the routine of attending class, going to work, then retiring home for the day. ASI and I do not want our fellow Titans to fall into this routine. I want to join ASI to make the college years some of the best years possible. I want to reflect on my college experience with pride know that I worked for the betterment of my Titan family. I know I will learn better time management, improve my communication, and my leadership skills. Specifically, my ability to develop connections and appoint people based on their skills. I know I will be thoroughly challenged but with every challenge comes an opportunity for growth. The combination of growth and able to serve my Titan family is what will drive me everyday.

Tell us about other commitments and involvements you have planned for summer and next school year (tell us about clubs, organizations, and campus programs you are involved with, other leadership positions you have accepted or are applying for, plans for study abroad, jobs, internships, fieldwork, etc. that will be on your plate. ASI leadership is a big commitment and we want to make sure you will have time for this involvement): \*

This fall semester I will be taking a full course load. In addition to this I will be working at the Center for Research on Educational Access and Leadership (C-REAL). I work about 13 hours a week but that can change depending on what deadlines need to be met. Since I am a scholar with the Male Success Initiative, I do attend monthly meeting on Fridays from 2pm-4pm with some events throughout the year. These are my main priorities but in honesty I'm really do want to be more present on campus. I have some large gaps in between my classes and I would like to fill them by serving my Titan family.

Are you interested in any of the other commission areas? \*

- No I am not interested in any other commission areas

.1. I believe the role of student representation on committees is primarily to advocate on the best interest of their fellow Titans and to constantly inform and receive feedback from our family. I believe student representation should always keep their fellow Titans in minds when they serve because we are the ones who are ultimately affected. For example, if a student is on the academic appeals committee, they should be advocating for policies that make the process just for our family. If they believe the current process is not just then on top of fighting to improve them; student representation should inform our Titan what they are fighting for. Because it is in highlighting the impact of their work which demonstrates how important the work done by student representatives.

2. I'd like to share with you the most impactful volunteer programs beginning with the Male Youth Empowerment Conference (MYEC). MYEC is a one-day event where CSUF invites high school freshman to explore and understand their opportunities in higher education. The day was filled with seminars on topics such as how to apply to colleges, financial aid, etc. Through this conference I was able to connect with students and listen to their stories, values, and aspirations. These students were often belonged to minority groups and some felt as if college was unattainable. I did not hesitate to cast their doubts away by sharing my story with them. I explained to them that higher education is attainable. That they can and will succeed in higher education so that they can set a new precedent of college bound students in their communities. MYEC taught me what it means to be a role model for younger people in my community. A person who motivates the hungry and inspires the doubtful.

However, a role models behavior should also be community minded and always be willing and able to give back. I learned this lesson from my time at the Ronald McDonald house and Habitat for Humanity. Habitat for Humanity provides affordable housing built primarily through volunteer labor for people who cannot afford to buy a home. Ronald McDonald houses are always close to children's hospitals because they house provides shelter for the families of children facing severe illnesses such as cancer. At Habitat for Humanity I learned about the extreme difficulty, particularly in Orange County, of purchasing a home and the effect of high rents on people. While at Ronald McDonald house, I helped prepare, cook, and serve breakfast to families. Through both of these opportunities I was reminded of the extremely fortunate position I am in and how important it is to give back to those less fortunate. That a person can not call themselves a role model if they are not promoting philanthropy and volunteer work.

3. Firstly, I want to get know people personally. How passionate are they about our Titan family? What issues do they want addressed? Why do they want to get involved? I believe if I get to know my fellow Titans for who they are then; I will be able to separate the people who truly want to serve our Titan family from those who desire the title. At this point recruitment is simple because I know there is a strong desire to serve and all I have to explain how they can act on those desires. For engagement, again I need to deeply connect with my Titan family. It is very hard for someone to advocate or be engaged in conversation if they are facing personal issues, or have academic concerns, or are food insecure. I want to build connections so that engagement comes naturally because I am seen as family, not the Presidential Appointee. Finally, I will motivate others by demonstrating their accomplishments and growth no matter how small or large. It is very easy for others to become discouraged because they don't see large changes. But if a fellow Titan tells me they are regularly speaking for a couple minutes during meetings yet began their journey by not saying a word. Then I will highlight this accomplishment because progress may come slowly but it is still progress. That this can translate to change as long as they remain consistent. I believe that will motivate in one in our Titan family to continue to strive for our Titan family.

4. For ideas, first I want to know the current ideas of the advisors. I'm sure the advisors are aware of some issues and have solutions for them. Or they have new, exciting plans for the year they really wish to become reality. I want to facilitate those ideas as best as I possibly can. To make it clear that I am equally if not more concerned with their ideas than mine. Personally, I would like to add presentations and guest presentations that aid our Titan team in becoming even better advocates. For example, say that our team in the first meeting of the month express difficulty in speaking on committees not because they don't what to say but how to say it politely. At the time of the meeting, I would give my best advice to the team but at the next meeting bring in a presentation or guest speaker to further elaborate on the issue.

As for my goals, I have three primary goals. Firstly, with the help advisors I want to help place the best student on the committees which interest them and play to their strengths but also challenges them and stimulates growth. Secondly, I want to support my fellow Titans as best I can by getting to know them personally. Learning who they are, what they want to be and the struggles they face. I want

my fellow Titans to be as honest as they can with me. Finally, I want to increase the number of quality applicants to the position.

As for my goals, I have two primary goals. Firstly, with the help advisors I want to help place the best student on the committees which interest them and play to their strengths but also challenges them and stimulates growth. Secondly, I want to get to know every all the advisors and student representatives because I want to them know they can be extremely open and honest with me. I want to create relationships predicated on trust and openness so that we can be the best team possible. Finally, I want to increase the number of quality applicants to the position. I believe this position is vital for having our voices be heard and I want people who share that sentiment to be in the position. Not people who want the position for the title. I believe the final goal will be the most difficult but also the most rewarding. Although I want to promote the PAC position, I also want to encourage people who have our Titan family as their driving motivation to join be the next PAC.

5. I would promote the position by using traditional methods such social media, posters, etc. However, I will be more proactive in demonstrating what the position does, and how important it is. Positions such as Board of Trustees or ASI president are better known because people know the duties and importance. I think stressing the importance of the PAC to our Titan family and applicants are driven by a desire to help our Titan family. Then the quality of applicants will improve and overall the promotion of the position will be a success.

Executive Officers Report

**PRESIDENT**

AARON AGUILAR

As we begin work this week on drafting a resolution in support of an on-campus food pantry, I urge you all to take a moment to review the various studies on basic needs available on the CSU website. We continue to exist as the only campus in the system to not have a permanent pantry in place and, as the data demonstrates, food insecurity (which unfortunately tends to tie to student homelessness as well) is an invisible issue; one that continues to impact not only our campus community but many others across our nation. As we move into these next few weeks, it is imperative that we as student leaders come to understand the effect this can have on a student's holistic success and the capability we have to change it.

First off, thank you to everyone across all of ASI for every effort you put forth this past week. Our events were a success for students and a true testament to the passionate and wonderful work ASI's programming teams & advisors put in over the past few months as well as the combined effect we can have upon coming together as one group to promote all of the opportunities we can offer. This coming week brings more lively events; from the concert & eat and greet on Wednesday afternoon, the Avengers: Endgame movie night this Thursday night, and even CSUF's incredible Concert Under The Stars this Saturday evening. I highly encourage you all to swing by if you can and continue to support these spectacular events! Next, this past week saw the debut of the first two of many outreach presentations for ASI; these introductory sessions hosted by our Diversity Initiatives and Resource Centers yielded an exciting interest from future student leaders seeking to get involved in positions such as your own! Isaac and I are extremely excited to further the reach of this initiative to other areas of campus over the next couple months as we all strive to fill committees, commissions, and additional areas of ASI; ***if you are interested in getting out into the campus community and planting seeds for future leadership, reach out and I will connect you with the presentation and everything you need to know!***

Additionally, Mansi and I were able to meet with Kristen and Sasha from Parking and Transportation this past Friday and receive some updates; their amount of off-site permits purchased has increased from last semester, there are now over six hundred students, faculty, and staff who are registered in the CSUF Waze Carpool system that allows them to park in specially designated carpool parking next to our student recreation center, and thirty two students have signed up for the parking permit payment plan (primarily juniors); there will be

more feedback and data available after the second installment deadline of the plan on October 4th.

Also, we had the opportunity to meet with President Virjee and provide an update on our goals and other ongoing projects. I am thrilled to say that President Virjee is not only on board with our plans for a permanent pantry on campus but was more than willing to provide insight and connections he has gained from other CSU campus and community involvement as well. With support from the university, we can continue to move towards our end goal; once again, you have the opportunity to reach out to help over the coming weeks! In addition, we discussed efforts on the university's part to increase safety for students in light of tragic, recent events and ideas for future campaigns and events that could work towards comforting our campus community in this difficult time.

Lastly, Claire and I are working to fill both the Student Fee Advisory and Student Success Initiative Fee Advisory Committees by this Wednesday evening. Mass emails have been sent out to various areas of campus but please continue to emphasize the importance of student representation on both these committees and the wide range of other university-wide committees that remain open for students to take advantage of! IRA Chair and Elections interviews should also be occurring this week and, upon the close of this week, Tori and I will be attending CSSA at CSU San Marcos; always feel free to let us know if you have any questions or concerns. Other than that, I wish you all your most wonderful week of the semester yet.

## **VICE PRESIDENT**

**MANSI KALRA**

This past week was full of events! On Tuesday we had our first Farmers Market for the year and ESC did a great job facilitating. Wednesday was the first Mobile Food Pantry for the year. This year we are tracking intake using Event Pass so that we have a count of how many people are using the resources. The food lasted longer this time given that we had a self select model. This allowed people to only take what they would actually use.

Thursday was All Day ASI! Thank you to those of you who helped out throughout the event. The highlight was definitely the concert which brought in a crowd of almost 700 people! I'm super proud of all our programmers for their commitment to the event, make sure you show them your support as well!

We also had our first Street Team meeting last week. It was the largest first meeting that we've had in years and everyone is super excited to start getting involved. We are going to have students start shadowing leaders soon so I'll keep you all in the loop about those details. Our first meeting with President Virjee was last week as well. It was really productive and he was very supportive of our goals. Specifically, he gave his support for the food pantry and agreed that it is overdue.

I have been working with the Women's Center to collaborate on a women in politics panel. We are working on the details right now but it should be happening later in the semester. It will be a panel featuring local leaders including mayors, congresswoman, and assembly members. If you're interested in helping please let me know!

Hello everyone!

I hope your semester is treating you well so far!

1. **Presidential Appointee Commission.** THE LINK IS STILL

LIVE: <https://asicsuf.wufoo.com/forms/asi-presidential-appointee-commission-20192020/>

Three Board members have applied. It is my hope that you all serve on at least one committee. Aaron and I will keep going around to the different ICC meetings this week to talk a little bit more about serving on committees. It is crucial that we have students sit on these committees because it is a place for faculty and admin to hear about student concerns. If you want to be apart of important discussions about parking, facilities, GE and other things, **PLEASE** fill it out.

Apps are coming in, but I ask that if you do not fill it out, please give it to your ICC's and other groups who may be interested.

2. **Environmental Sustainability Commission.** We have a Beach Clean Up scheduled on September 21 at 9am! We will be working with CEC but hope you all join us as well. The link is accessible via the link tree.
3. **Food Pantry:** Last week the food pantry went really well-- we ran out of food in an hour! This also continues to show the need for a long term, reliable source of food for students who are food insecure. Our current food pantry schedule is monthly--which is not nearly enough. It also makes it incredibly difficult to have more nutritious foods that might need refrigeration.
4. **Commissions Appointment:** I have selected a candidate for PAC and will be representing him during his appointment process today as he has class.

Thanks everyone! If you have any questions or **want to be on committees**, feel free to email me!

**All Day ASI**

- Thanks to those who helped out during All Day ASI. Your help was definitely noted and greatly appreciated.
- The ASI Instagram account reached 10,000 followers that day!
- Thanks to those who helped cover the event through “taking over” our Instagram story.

**Town Hall**

- I had a meeting with Leo from UCC to set in stone the plans for the event.
- All panelists will be finalized this week. Currently only missing a commission member for the panel.
- I am currently preparing a document to send out to panelists to prepare them for the event. I will also be meeting with them next week.
- The Communications Commission will be tabling outside of the TSU next week to collect prewritten questions from students.
- Please let me know if you will be attending the event by accepting/declining the calendar invite that I sent you all.
- Even if you are not sitting in the panel, you are all highly recommended to attend if you are available. Listening to students is an essential part of our jobs.

**Direct from the Board**

- As previously mentioned, our new video series that recaps our Board of Directors meetings, Direct from the Board, will launch at the end of the month.
- We filmed Sidney’s and Wendy’s part last week. I’d like to thank them for their effort – I greatly appreciate it!
- We will be filming Lorren’s and Maria’s part again. Their filming will be done on Wednesday.

**Titan Night @ Fullerton Night Market**

- The Community Engagement Commission will be partnering with University Advancement to table at the Fullerton Night Market next week.
- Fullerton Night Markets are nights in Down Town Fullerton filled with music, food, and fun! Next week’s Fullerton Night Market will be “Titan Night” – a night themed around Cal State Fullerton.
- The commission will have two tables for ASI. Help from student leaders would be greatly appreciated. Tabling is from 4 PM – 8 PM. You wouldn’t have to be there for the entire time. Here is our SignUpGenius for student leaders outside of CEC:

# BOARD OF DIRECTORS

CALIFORNIA STATE UNIVERSITY, FULLERTON™

## CHAIR, VICE CHAIR & TREASURER/SECRETARY REPORT

September 17, 2019

### **Brittany Cook, Treasurer/Secretary:**

Hello everyone!!

It's week 4 already! By the end of this Friday, we'll be 25% done with the semester! Time has flown by.

- Last week was another big training day in the Finance Committee. It's a lot to digest, so hopefully in the next few weeks we can have some practice session with mock proposals so that we can put our knowledge into play. Along with a bit of policy training sprinkled in.
- The first Executive Senate meeting with all the funded/funding councils will be this Thursday, September 19<sup>th</sup> from 5-6pm in the TSU Board Room. It will be an easy-going, chill introduction meeting. Our next meeting with the other half of the councils will then be Tuesday, 24<sup>th</sup>—same time and location. Feel free to drop by!
- A big thank you to everyone who helped out with All Day ASI!

Looking forward to the other three quarters of the semester with you all!

### **Maria Linares, Vice Chair/Secretary:**

*Greetings ASI,*

*I hope you all had a great weekend!*

#### **Governance**

◆ Last week, we reviewed & discussed passed resolutions. Each member picked 2 resolutions to work on and shared their notes. I am proud of my team; they did a great job! In the weeks to follow, those who didn't finish reporting because of time will get to share their notes. I have encouraged my team to connect with Kayleigh & exec officers to follow up on these resolutions. It is important to know what has and has not been resolved on each of these and to work together to implement them. My team had positive feedback after reading the resolutions & sharing their notes. They learned a lot about the history of each resolution, and the asks of students. I highly recommend everyone check in with their co-director to share their knowledge.

- Huge thank you to Kayleigh! She came to the meeting to share her knowledge on the history of resolutions & to explain the different categories. Also, big thanks to Asha for answering our various questions. You both are rockstars!
- For those of you who are not on Governance but may be interested, I encourage you to attend a resolution training provided by Asha. This will be done at one of our future meetings. It looks like it may be October 3<sup>rd</sup> but don't quote me on this. I will send details as

soon as I have the logistics down and have created the agenda with that specific item. Remember, these meetings are open to the public and you are always welcome to attend and sit in the gallery.

◆ **Meetings/Events last week:**

- Scott, Isaac, and Lorren to discuss Direct from the Board. We will be filming this Wednesday
  - Met with Monica & Valarie (HSS ICC Social Justice Facilitator) to talk about the campaign Monica is rolling out in November
  - Attended the ASI Programming meeting
  - HSS Fall Welcome
  - Handed out donuts at ALL Day ASI
    - Sad that I couldn't attend the rest of the events as I had mandatory meetings and class
  - Met with a new transfer student who is having a difficult time on campus. Someone referred her to me and after our meeting, she felt great. She is a parent and I was able to connect her to resources on campus and help her narrow down her concentration in the Sociology department. This meeting made my week a happy one 😊
  - Meeting with Drew & Melanie about our goals. By the way, my co is AMAZING!
  - Met with President Virjee, Mansi, Aaron, & Keya to talk about food pantry, Title IX, and campus master plan. I won't go too much into details as this is more Lorren, Aaron, & Mansi's department and out of respect will let them report on this. But if you would like to ask me questions about the meeting, I would be more than happy to meet with you.
- ◆ I had previously reported that the U.S. Customs and Border Protection would be on campus for an event on October 3<sup>rd</sup>. I was recently informed they have pulled out and will no longer be coming to table.

Have a wonderful rest of your week team. See you all tomorrow at 1:15 pm at our Board of Directors meeting.

Kindly,

**Maria**

**Lorren Baker, Board Chair:**

Hello team,

I hope you were able to go out to all day ASI!

It was really fun and exciting to see so many new faces.

The liaison assignments have been made so please check the times and attend them when they meet and report on them every week. Thank you all for submitting your reports promptly, from now on we all should have a report due by 5pm Fridays - it helps to set a calendar reminder.

I posted on groupme what I would say when I introduced myself which you may use if you please.

I will state it again for your convenience:

“I am a Board of Director for the college of \_\_\_\_\_. There are 8 academic colleges and I represent \_\_\_\_\_, much like a senator. All students are a member of ASI because a portion of your student fee goes towards your membership to ASI. ASI acts as our student government, in addition they fund things such as clubs and programs -that’s why we see the ASI logo on a lot of shirts. Because these clubs are recognized on campus they have a partnership with ASI and they have representation from the Board of Directors. We strive to update you about things happening on campus so we may bring that information back to the Board. In addition, we also highlight club activity and events on the board to spread the information for others to participate.

Note: Our goal is to make sure all students feel they have a voice and their voices matter and we strive to be transparent with them. Our job as ASI liaisons isn't to tell them how to do their jobs but to be there as a tool in case they need us. Sometimes we may have the answers in that moment and other times we may need to get back to them. But we will always take our jobs seriously & be their bridge.”

If you have not, submit your goals to me and CC Keya. Also submit your office hours day/time/location to clerical and CC me. I will be coming to your office hours at some point during the semester, if I cannot I will send a Vice Chair, as written in our policy.

Lastly, please read the agenda and attached documents before attending the meeting. In addition it is our responsibility to read the minutes and reports. Please write down questions you would like to ask our time certain, ask during discussion items and so forth. The information is given to you in

advance so you can ask your constituents their stance/feedback, and so you can ultimately be prepared.

Have a great week and please reach out to me if you need clarification on anything.

Go Titans!
