Tia Chea from APARC along with a student, Neha Upadhyaya, shared information regarding a change in the terms used to refer to their community. The updated reference is South Asian rather than Desi. Chea clarified that they will not be changing the name of APARC or their focus but only this language. Their goal is to be more inclusive with the change.

Katie Savant, Director of Local Government and Community Engagement, shared information on upcoming campus service events, Titans Give Back on November 10th from 10am to 2pm on Titan Walk. Austin Ysais, Manager of Student Programs and Engagement, shared that the Beyond the Conversation Series is starting again next week. Ysais informed members that Danny Trejo will be coming to campus on September 29th, and cordially invited all members to attend and thanked them for their continued support.

6. **Time Certain**

a. **1:30pm: Dr. Carolyn Thomas, VPAA/Provost & Dr. Yuying Tsong, AVP Student Success**

Dr. Thomas introduced herself and provided an overview of her role and duties as VP Academic Affairs and Provost. Dr. Thomas introduced Dr. Tsong to share their plan for CSUF Advising.

Dr. Tsong shared her background and expectations with the Board.

- Dr. Tsong shared the goal for students to have relevant and consistent training and assistance from their advisors.
- Dr. Tsong shared details on the new advising model goals, with efforts to have consistent advising for students across all majors and those whose major is undeclared.
- Dr. Tsong provided further details on the new advising structure for first and second-year students.

Galvan opened the floor to questions.

Wong asked how first and second-year advising will be mindful of the other students in the CSUF Community. Dr. Tsong responded that they had gathered information on all student's needs and they will implement what they can while utilizing CSUF's Best Practices targeting the demographics that need the most help.

Butorac said he is aware that this formula does target first and second-year students, but asked how it would benefit students in their third and fourth years. Dr. Tsong said this was created to address the need of first and second-years, but that currently, each college has advisors dedicated to the students who have 60 units or more, which are typically third-year students and beyond. Dr. Thomas added that this is a three-year plan and so far they have only shown what will be happening in the first year. Dr. Thomas also shared that the needs of third and fourth-year students are different so their assistance and model for them will also be different.

Diaz asked what would the transition look like for students from their second to their third year after this plan is implemented. Dr. Thomas said that during this implementation they hope to learn as they go along how to best transition and address the needs as they become apparent.

Galvan asked if students that have honors advisors will be sticking with them or will be having these advisors as well. Dr. Tsong said those students will still have their honors support, but will also have access to these advisors for additional support.

Lieberman asked if these advisors will also be advisors for other students as well. Dr. Thomas feels that to start these individuals would not be assisting students other than those assigned to them, instead, the advising leads would be providing that assistance.

Lieberman shared that self-service advising was beneficial to students such as himself and asked if there were any plans to improve that service. Dr. Tsong said student needs are different and she wants to be able to address student needs of all types and

would like to improve this service method as well. Dr. Tsong informed Lieberman they would like to reach out to him and discuss this further.

Vences asked how the students and advisors will be put in contact with these advisors and if the burden is on the student to reach out. Dr. Tsong said their intention is to provide cases to advisors which would result in advisors contacting students proactively to inquire about concerns. Dr. Thomas said this is not just for the students who need it but also for the students who may not know they need it. Dr. Thomas reinforced that this is for every first and second-year student.

b. 2:00pm: Andy Maffia, Managing Partner, Aldrich Advisors LLC

This item will coincide with New Business Item 9.a

Andy Maffia introduced himself to the Board and shared the importance of the annual audit for colleges and other non-profit organizations in the CSU System.

Maffia reviewed the audit document and informed members that the document they are currently reviewing is in draft form, allowing them to still make changes if needed.

Maffia informed members that they were hired by CSUF ASI to complete this audit and provide an unmodified opinion. Maffia said that this is the highest level of opinion they can give.

Maffia said they did not find any issues with ASI's internal controls and that he is pleased to report the significant positive changes in this organization from prior years.

Galvan opened the floor to questions.

Diaz asked for confirmation that ASI had a positive and successful audit. Maffia affirmed that ASI had a 5 Star report with no issues.

Lieberman asked about the impact of COVID in relation to the report; Lieberman asked if it would be better to use pre-COVID measures to compare. Maffia said they must follow Generally Accepted Accounting Principles (GAAP). These guidelines define the terms, standards and parameters that must be followed for the audit review.

Butorac asked if the company can predict foresight for the organization. Maffia shared that projects to predict company foresight like what Butorac is requesting would be coming from ASI internally and not on their External Audit Report.

Galvan opened the floor to discussion.

Dr. Edwards shared that based on previous audit reports they have been working to resolve these issues and applauded Carol McDonald and Carolyn Ehrlich for their assistance in resolving these issues and helping to create better systems to move forward.

Galvan asked members of the Audit Committee if they felt like enough information was provided to help them understand the process.

- Vences felt that the information was digestible once they received supporting documentation to supplement their understanding.
- Martin shared that he felt similar but gained an understanding as the process continued.
- Toh-Heng said she still felt somewhat lost by the end but still feels confident that they made it through successfully.

Public Comment:

I would like to invite ASI to participate in the first ever, fall day of service – Titans Give Back on Thursday, November 10th from 10AM – 2PM on Titan Walk. We have 4 service projects with 3 nonprofit organizations coming to campus. I would like to invite ASI leadership to help be Table Captains (2 student leaders) for the OC food bank where produce will be packaged into 3–5lb bags. The produce will be donated to the ASI food pantry and the remainder will go back to the Food Bank to help those in the community. Promotional materials will go out in October. Interested parties can contact me, Katie Savant, at ksavant@fullerton.edu for more information. Thank you.

Hello, my name is Alexandra Norton, and I am the Panhellenic President for 2022. Below is our written report for the ASI Board of Directors. Because we are still settling into our positions, none of our events for the year are officially planned, but I will include the ideas we have and keep you all updated with set dates and information when we have those available. Thank you!

1. Goals for our council:

a. Short-term goals-

- i. Gain new members through our first fully in person fall primary recruitment since 2019
- ii. Host a philanthropy event for an organization in our community
- iii. Acknowledge academic achievements through scholars of the month and semester scholarships
- iv. Improve chapter relations through sister-sororities
- v. Plan an all chapter celebration event at the end of the semester
- vi. Establish a marketing plan for promoting the council's roles for next year
- vii. Create thorough transition documents stating things learned and suggestions for future

b. Long-term goals-

- i. Increase education and principles of diversity, equity, and inclusion throughout our council
- ii. Establish a Dean's List Banquet to acknowledge women in our community who make exceptional grades this year
- iii. Put more emphasis on philanthropy events throughout our councils
- iv. Improve communication between the council, advisors, members, and outside parties
- v. Promote deeper connections between individual chapters and their members- attempt to decrease hostility displayed in the past (especially involving recruitment)

- vi. Create a system for future council members to learn from our mistakes and make changes
- vii. Start to form connections with Titan Athletics for future partnerships
- c. Individual officer goals (each member of the executive board was asked their main goal in accepting this position)-
 - i. President: increase community involvement in activities outside of individual chapters
 - ii. VP of Scholarship: create new responsibilities for the position
 - iii. VP of Programming: create graduation stolls for members who have served in the council

 - ix. VP of Judicial Board: create a deeper understanding of Panhellenic bylaws throughout the whole community
 - x. VP of Diversity and Inclusion: promote education on topics of diversity, equity, and inclusion both on a council level and within individual chapters

2. Current funding status (from our VP of Finance's Official Budget Proposal):

- a. Panhellenic, being a non-profit, is unable to fundraise for its own self benefit. The funding we receive from ASI helps us to have events that not only benefit our members, but the surrounding CSUF and Fullerton communities. All of the events we host have some type of impact on our community, whether that be enhancing the social experience in a virtual format, encouraging academic success, teaching our members how to be responsible with their actions, or facilitating our philanthropic endeavors to help the surrounding communities. All the money we are granted is used in good nature and for the betterment of our members and

community. If we receive less funding, there would be a great decrease in our programs, speakers and events and thereby weaken the Panhellenic Council's ability to serve our members and community.

- b. Panhellenic receives a large portion of its funding from the generous contributions of the Associated Students CSUF, Inc. This funding helps us pay for the majority of the events we put on, and without this funding, we would not be able to benefit CSUF students as much as we have. There is also a recruitment fee all women must pay for when going through the Fall Formal Recruitment process (excluding Fall of 2020). A small portion of our funding comes from an annual membership fee paid by the chapters (excluding Fall of 2020). We cannot increase this fee as it is assessed on the chapters and they cannot afford the increase. These funds are used toward necessary items ASI does not cover and are for events that are restricted to only Greek and Panhellenic Members.
 - c. Yes
 - d. We made a contingency request fall 2018 for \$8,150 in the supplies line item expense.
 - e. Expenses/A-Side Expenses
 - i. Supplies: \$9,900
 - ii. Printing & Advertising: \$1,300
 - iii. Contracts/Fees/Rentals: \$7,650
 - iv. Travel: \$1,500
 - v. Dues & Subscriptions: \$1,500
 - vi. TOTAL: \$21,850
 - f. Expenses/B-Side Expenses
 - i. N/A
3. Overall Panhellenic Events (official plans/dates TBD):
- a. Panhellenic Study Nights- to be held monthly
 - b. Panhellenic Diversity and Inclusion Workshop- one per semester
 - c. Panhellenic Philanthropy- one per semester
 - d. Panhellenic sisterhoods- up to chapter discretion (part of sister-sorority system)
 - e. Fall Formal Recruitment- September 9-12

- f. Panhellenic “Date Dash”- TBD
 - g. Individual chapter philanthropies, sisterhoods, events, etc- TBD
4. MEETINGS:
- a. Weekly meetings on campus

I hope this report covers all of the information needed about our plans for the rest of the year. As stated above, we will keep the Board of Directors informed on exact dates/times/locations for events as they come. Please let me know if any other information is needed from me or any of our officers. Looking forward to a successful year!

Many thanks,

Alexandra Norton

To the Board of Directors
Associated Students, Inc., California State University, Fullerton

We have audited the financial statements of Associated Students, Inc., California State University, Fullerton (ASI), for the year ended June 30, 2022, and have issued our report thereon dated **DATE PENDING**. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our engagement letter dated July 19, 2022. Professional standards also require that we communicate to you the following information related to our audit:

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by ASI are described in Note 2 to the financial statements. As described in Note 2, ASI adopted Accounting Standards Update (ASU) 2020-07, *Presentation and Disclosures by Not-for-Profit Entities for Contributed Nonfinancial Assets (Topic 958)*. Presentation within the financial statements is more rigorously stipulated as documented in Note 10.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the financial statements were:

Management's estimate of the collectability of outstanding receivables based on their assessment of the credit worthiness of the customer or entity. We evaluated the key factors and assumptions used to develop the allowance in determining that it is reasonable in relation to the financial statements taken as a whole.

Management's estimate of the useful lives of furniture and equipment is based on management's estimate of the life of the assets. We evaluated the key factors and assumptions used to develop the useful life in determining that it is reasonable in relation to the financial statements taken as a whole.

Management's determination of the assets that should be capitalized in the records of ASI versus those that should be transferred to the California State University, Fullerton (University) and capitalized by the University. We evaluated the key factors and assumptions used to determine which assets should be capitalized in determining that it is reasonable in relation to the financial statements taken as a whole.

Management's estimate of the allocation of functional expenses, which is based on square footage, time and effort, and usage. We evaluated the key factors and assumptions used to develop the estimates related to the allocation of functional expenses in determining that it is reasonable in relation to the financial statements taken as a whole.

Management's estimate of the pension and other post-employment benefits liability is based on the results of the actuarially determined liability. We evaluated key factors and assumptions used to develop the estimates related to the pension and other post-employment benefits liability in determining that it is reasonable in relation to the financial statements taken as a whole.

Management's estimate of the value of in-kind contribution of space from the University for the usage of buildings at no cost. We evaluated key factors and assumptions used to develop the estimate related to the in-kind calculation in determining that it is reasonable in relation to the financial statements taken as a whole.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. There are two sensitive disclosures affecting the financial statements:

Note 3 which discloses ASI's cash management and available resources.

Notes 6 and 7 related to the pension plan and other post-employment benefit liability is sensitive as it is significant to the overall financial statements. This liability records a future liability for the pension and other post-employment benefits of ASI.

Note 8 which discloses the net assets and associated restrictions.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. The attached schedule summarizes corrected misstatements of the financial statements. There were no uncorrected misstatements.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated **DATE PENDING**. A copy of the letter is included for your reference.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the ASI's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as ASI's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

With respect to the supplemental information accompanying the financial statements, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with U.S. generally accepted accounting principles, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplemental information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

This information is intended solely for the use of the Board of Directors and management of Associated Students, Inc., California State University, Fullerton and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Aldrich CPAs + Advisors LLP

Status of Prior Year Control Deficiencies

Year Ended June 30, 2022

Fund Accounting

ASI uses fund accounting to account for different departments (Instructionally Related Activities, ASI, Agency, and Titan Student Center). ASI has an agreement with the University to provide disbursement services for the CSU Fullerton Athletics Department (Athletics). During the audit we identified that expenses for this agreement are paid from ASI bank accounts and are then later reimbursed from the University. Recording the transactions in the ASI bank accounts increases the risk for error in accounting treatment and also makes it difficult to review and track the activity that is related to ASI and the activity related to Athletics.

Status: This is still an issue, but management does not have control over the decisions related to the operations of IRA and Athletics funds as this is determined by campus. They also are expected to help to cover the expenses with ASI funds as they manage the billing and collection process.

Prior Year Finding 2021-001

During the fiscal year ended June 30, 2021, we identified a deficiency in the review and approval of financial information. There was no consistent review of financial statements performed by management or the board during the fiscal year. There was no evidence of the review of investment activity being performed during the fiscal year, but the custodian did approve regular statements. There was also no consistent documentation of the timely review of bank reconciliations. It was understood that the accounting system does not facilitate the production of a complete set of financial statements which meant the process is manual and subject to errors.

Status: For fiscal year ended June 30, 2022, management has taken the necessary steps to create the monthly financial information with a review and approval process. The Executive Director, Assistant Executive Director and the Director of Finance review and approve the financial statements monthly. In addition, the Finance and Accounting System Implementation project has begun. Management has received four proposals in response to a Request for Quote from accounting software vendors. The selection of a vendor and implementation of the system is anticipated by July 1, 2023.

*** What do you believe is the role of ASI on our campus and how does that role relate to this position?**

I believe that ASI's role on campus is to represent and serve our students. ASI establishes a community of more than 40,000 Titans. With that said, I also believe that ASI student leaders greatly impact the Titan experience because they have the ability to represent our students and speak on behalf of their concerns. Essentially, I believe that ASI is the heart of CSUF because of the roles it plays with student empowerment and the resources it offers our Titans. I believe that what I've described about ASI's role on our campus directly mirrors the role of the Board of Directors for the College of Communications in representing and serving our students here at CSUF. As I mentioned earlier, ASI has the ability to influence campus life by being a voice for students and I strongly believe that being the BOD for the College of Communications role bridges vital conversations between students and professional staff here at CSUF. So, I believe that the role of the BOD for the College of Communications is directly tied to allocating more equity on campus by adding further resources designed to empower students. Finally, both ASI and the BOD for the College of Communications have the responsibility to represent our students because they deserve to feel at home here at CSUF. Whether in-person or online, ASI's platform reaches more than 40,000 students, and ASI bridges CSUF, the institution, with student-to-student engagement who are looking to get involved. My time as a Communications Coordinator has given me first-hand interactions with our Titans, and I continue learning how I can use my platform to echo their concerns and distribute resources for our students to continue thriving at CSUF.

*** Tell us about any relevant past involvement or work experience that you have and how it will help you as a Director for your college.**

My name is Alan Ruelas and I am a proud first-generation Mexican-American man of color here at California State University Fullerton majoring in Public Relations. Also, I am a transfer student and a proud member of the LGBTQ+IA community. At my Community College, I formed part of equity programs such as EOP, TRio/SSS, Men of Color Scholarship Program, and Umoja. Within MOC, I served as a mentor for our first-generation college students and formed part of the faculty. Outside of these programs, I played as captain for Norco College's Men Soccer and served as a Senator of campus relations for the Associated Students of Norco College. I took the initiative to join ASNC because I am passionate about self-empowerment, equity, and representation. Currently, at CSUF, I am part of the Male Success Initiative, Associated Students Inc. CSUF, and AL DIA. After completing my internship with Titan Radio as a host in Fall 2021, I continued over with MSI with another internship and employment opportunity. With MSI, I took the initiative to create our program's first podcast called Get Going with MSI where I specifically highlight our Brothers and their valuable stories as their host. Each Friday, I spotlight different Brothers' endeavors with our 15-minute interviews focused on connecting, empowering, and inspiring others through the power of storytelling. My work behind establishing Get Going with MSI is built off of breaking barriers and proving statistics wrong through our accomplishments. As ASI's Communications Coordinator, I manage ASI social media accounts and develop content as their host. I am proud to say I have my own segment called COMM on the Street hosted by Alan Ruelas, where I ask our Titans questions and they share their opinions weekly. My content is published on ASI's Instagram and YouTube for CSUF students to enjoy, alongside other innovative videos. I sparked the initiative to begin this series (COMM on the Street) because I value students' voices and cherish building meaningful connections with students. In this position, I am to vocalize our Titans' opinions, concerns, and interests with the skills I love behind Media, and Public Relations. I have had the opportunity to interview hundreds of Titans ASI's hosts, and I am happy to continue representing students through my work as their Communications Coordinator. AL DIA is CSUF's Emmy Award-winning student-produced bilingual newscast that prepares its students for careers in Spanish-language television. My initiative with AL DIA has been an important career opportunity because I debuted as an anchor. Within AL DIA, I am learning about producing, directing, and performing as on-air talent with my Latinx classmates. Similar to my previous internship with Titan Radio, AL DIA welcomes my cultural identity and promotes representation on campus by using different students' talents. As the semester continues, I will anchor and host, and I will continue reaching toward the fullness of my potential here at CSUF. All these lovely memories and experiences that I've cultivated from my community college days and also here within CSUF, have better shaped me into the resilient man of color that I am. I believe that my leadership endeavors will help me continue to be intentional about the use of my platforms, especially embracing equity to help propel change and establish genuine conversations with students who deserve to be heard. I believe that being involved on-campus is essential to being Director for your college because Titans will appreciate a student representative who understands the barriers they encounter. I've worked and played as team captain for many peers and teammates, and I truly believe in the power of teamwork. Now, transitioning to new leadership roles, I continue implementing this inclusive agenda where teamwork is vital and getting the job done is essential. Finally, I also believe that the different roles that I've completed have all helped me understand that I am always open to learning and growing.

*** Why are you applying to the ASI Board of Directors? What do you hope to accomplish and/or get out of the experience?**

I am applying for the BOD College of Communications position because I am a passionate advocator for student affairs and I am passionate about my major here within the College of Communications. This opportunity as BOD for the College of Communications is a continuation of the leadership I love and know best. Previously I have served as CC here within ASI, and I enjoyed each opportunity to engage with our Titans. Now, with more time and clarity, I am happy to serve and provide resources to help students reach the fullness of their potential by setting policies, allocating funding, and delegating amongst peers to establish new initiatives within the College of Communications. My mission behind my journey as BOD for the College of Communications is to elaborate on the importance of representation, equity, and empowerment for our students. I want to establish panels and townhall where students can be welcomed and listened to regarding their experience with the department and translate that into agenda items. I hope to initiate more multicultural initiatives within CSUF, especially establishing conversations with CSUF faculty. Ultimately, what I hope to get out of this experience is to be the resource I struggle to find growing up. I hope to create a legacy where the College of Communications becomes louder and prouder of the talented Titans we serve and create systemic change by advocating for students' affairs.

*** Please state any other information that you believe should be considered in this application.**

I am a full-time student who commutes to campus. As of now, I am involved with Male Success Initiative, Associated Students Inc, CSUF, and clubs. My employment with MSI here at CSUF allows flexible hours and provides opportunities to adopt other leadership opportunities, such as ASI leadership. My former position within ASI as Communications Coordinator has concluded, thus my availability will be open for the commitments of being the BOD for the College of Communications. I've set my academic schedule ready to embrace ASI leadership commitments and I am ready to dedicate my time as BOD for the College of Communications this year.

*** What made you decide to pursue this position?**

I want to make new connections and step out my comfort zone. I want to step out my circle and give an extra voice to make sure we have equality and fairness.

*** What do you believe is the role of the students' voice in decision-making on campus projects and issues?**

I feel like we hold the highest voice in the university. We are the ones who pay the most towards the university, so we should be able to have a say in where our money actually goes and how it's distributed.

*** Are you interested in topics such as academic curriculum, campus infrastructure, or program opportunities for students? If so, please elaborate. ***

I am interested in campus infrastructure. Campus infrastructure such as the rec center because that's where students go sometimes to relive their stress and frustration. I am all about making sure my peers are healthy in their physical and mental state. I want to also help with the parking structures as it takes hours at times for students to find parking.

*** What are you currently involved with on campus?**

I am a first-year kinesiology major, a resident of pine-3 which is the themed floor for college of HDD. I workout and play sports at the rec center. I am looking for new clubs to join and get familiar with what we have around campus.

*** Students selected to sit on a committee are provided training, leadership and professional development opportunities each month. What is your availability for the fall and spring semester?**

I have one class Monday and Wednesday 11:30am-5:30pm and three classes on Tuesday and Thursday from 11:30am-6:30pm. I have the most free time on the weekend, but I also have some availability during the actual week.

Student Fee Advisory Committee (SFAC): The Student Fee Advisory Committee is made up of students, faculty, and staff who review proposals for the establishment or adjustment of certain fees as well as periodically reviewing certain existing fees. Following the fee review process, the committee drafts a report to the University President detailing their findings and any recommendations. Student Success Initiative Advisory Committee (SSIFAC): The Student Success Initiative Fee Advisory Committee was created in 2014, with the implementation of the SSI Fee. This committee is made up of students, faculty, and staff who work to ensure accountability and transparency are occurring with SSI funds by reviewing quarterly presentations from SSI-funded areas. Please rank your interest for one of the three student fee committees below:**

Instructionally Related Activities Fee Committee : Third Choice

* What made you decide to pursue this position?

- Being involved in campus and student relations is a big goal of mine. If I'm going to attend school for four years, I want at least a day or the ability to represent my peers.
- some of the academic debate committees spark my interest, including Diversity and Inclusion as it relates to my own personal life journey

* What do you believe is the role of the students' voice in decision-making on campus projects and issues?

The role of students voice in decision-making on campus projects and issues is huge, a majority of these projects and issues affect students directly. Students voices are the most important and often times they are the least heard. To have a position that allows student leaders to represent the school is important and imperative to the future success of this campus and the dominos effect it may lead to.

* Are you interested in topics such as academic curriculum, campus infrastructure, or program opportunities for students? If so, please elaborate. *

I am interested in all of the above. Certain students on campus cannot use certain aspects and programs the school provides. Curriculum is also often more difficult for students with various problems and issues. To be able to be more inclusive to all and the ability to cater to most is a huge factor for me and my goal to be able to help a lot more students.

* What are you currently involved with on campus?

I am currently involved in the inter fraternity council, IFC, for the fraternity of Sigma Pi. I serve as the PR Chair and currently run the Instagram, ifcfullerton.

For Sigma Pi, I served as the philanthropy chairman where we raised \$3,000 for the Center of Autism here on campus with the help of Erica Howell. I also serve as the recruitment chairmen for the upcoming Fall 2022 semester.

* Students selected to sit on a committee are provided training, leadership and professional development opportunities each month. What is your availability for the fall and spring semester?

I am free Tuesdays and Thursdays after 3pm.

I am free Mondays/Wednesdays after 5pm.

Fridays, Saturdays, and Sundays depend on my work schedule

*** What made you decide to pursue this position?**

I wanted to apply for this position because I believe that students should be able to have a voice and have a voice when it comes to policy making and decisions. As a student at Cal State Fullerton for over 3 years, I have seen the impact that other students have been able to make. I wish to be able to make the same impact and make policy that allows students to have their opinions heard and reflected on campus.

*** What do you believe is the role of the students' voice in decision-making on campus projects and issues?**

I believe that students have and should have the opportunity to make decisions on campus. I believe that students should also be able to be represented by their peers when it comes to decision making and policy. The voices and opinions of the students at Cal State Fullerton should be the building blocks of current policy as well as future policy. Our opinions help shape our school into one that is more inclusive and allows students to feel heard.

*** Are you interested in topics such as academic curriculum, campus infrastructure, or program opportunities for students? If so, please elaborate. ***

I am interested in all the topics references but specifically program opportunities. I believe that students should have access to programs that provide opportunities for students to succeed both in and out of college. College is meant to teach us the necessary skills to be a well rounded person and having program opportunities only makes us as students more prepared to tackle real world issues and be successful straight out of the gates. I would like to increase the types of program opportunities as well as the exposure of our current opportunities so that students can gain as much from what our school has to offer.

*** What are you currently involved with on campus?**

I am currently involved in a fraternity on campus, Sigma Pi. I have held several positions within my organization such as Personal Relations Chairman, Social Media manager and am currently the Treasurer. I am responsible for all of our finances and making sure our organization is financially stable.

*** Students selected to sit on a committee are provided training, leadership and professional development opportunities each month. What is your availability for the fall and spring semester?**

I have open availability both semesters. I am currently enrolled in 5 classes that meet only on Tuesday's and Thursday's.

*** What made you decide to pursue this position?**

I see this as a welcoming opportunity to involve myself within the campus. This allows me to be able to create a supportive and welcoming environment for other students and allows me to express my creative capabilities within a team environment. ASI also gives me a chance to open myself up to new ideas and work on not only leadership skills, but as well as team building and communication.

*** What do you believe is the role of the students' voice in decision-making on campus projects and issues?**

I believe that in order to create an equal well rounded environment, students' ideas regarding the issues are also taken into consideration in coming to terms with the final decision. Hearing both sides of the issue/project such as the minor and major opinions and ideas will get a better understanding of it as a whole, which will result in an equal final decision being carried out. This will also create a safe environment for the students to open up to new ideas and come together as a whole.

*** Are you interested in topics such as academic curriculum, campus infrastructure, or program opportunities for students? If so, please elaborate. ***

Yes, Academic curriculum has the ability to give any student the knowledge to be a well rounded individual as well as set them up for their future in any way they see fit. Campus infrastructure is also a very critical component to a college campus that surrounds the students with people of the same major or relatively close to it. This allows the student to have a very cooperative and supportive environment. The program opportunities allow the students to further their knowledge or expose them to a very helpful team based opportunity that can open other pathways in life. This gives the student extra education and also helps them plan their future.

*** What are you currently involved with on campus?**

I am in my first year/semester in college. Due to this I am opening myself up to new opportunities. As a Political science major I am looking forward to joining multiple clubs and programs such as the CSUF Pre Law Society and others. I am willing to explore more about the campus and create a background for myself as an involved member and leader of the community.

*** Students selected to sit on a committee are provided training, leadership and professional development opportunities each month. What is your availability for the fall and spring semester?**

I'm always available upon request, except for my college classes for this Fall 2022 semester which take place in the morning between 8:30 a.m and finish by 12:00 p.m - 1:00 p.m on given days such as Tuesdays and Thursdays. Besides being enrolled in school and currently in classes I also work a full-time job. Although, my job offers flexible hours allowing me to be available whenever necessary.

Spring 2023

*** What made you decide to pursue this position?**

1. Titan Experience - I want to make sure the CSUF students have a spectacular experience by first, hearing what their opinions are on campus and how we can help them improve. The recent funding given to diversity programs is an initiative I want to continue for private settings and public events .

2. Empowerment - Continuing being a role model to all undergraduate and graduate students through our daily efforts and empowerment events. I have a strong interest into making sure a process works and how exactly it works with full transparency to all CSUF students when it comes to their discussions are heard.

3. Academic Success- I also want to set a standard that academic success is important for all Titans. Helping implement a mentorship program, such as the Center for Leadership, is important for a larger scale for all CSUF undergraduate students.

*** What do you believe is the role of the students' voice in decision-making on campus projects and issues?**

The reason why it is significant for me to be an advocate for students is because I once had opinions about my college experience that I believe was not heard. I struggled as a first generation Freshmen student with no mentorship and advocates for myself. I want to help the next class of student's to have a person to connect with and find similar interest to work together and help get their point across in the correct process, through an ASI Governance Ambassador

*** Are you interested in topics such as academic curriculum, campus infrastructure, or program opportunities for students? If so, please elaborate. ***

If I would to rank those topics, I would be most interested on program opportunities for students on campus, especially for students of color. I like to push Diversity, Equity, and Inclusion Efforts when possible on college campuses. I also believe in having a strict academic curriculum where underclassmen need to take academics seriously and need structure as much as the school can push them. Campus infrastructure is not the largest priority of mine.

*** What are you currently involved with on campus?**

To begin in the Summer, I plan on taking a commercial real estate internship locally in Orange County to still remain close to CSUF. I also plan in being an active analyst for the Student Managed Investment Fund in the Finance department so I can remain active with students in my Club. For the Fall, I plan on only taking 4 classes per semester(2 upper division Finance classes) and will not have any employment during weekdays. I will be always available throughout the week as needed. I also am active in my Sigma Pi fraternity; however, I am not chairman of a committee as I planned on open availability for an organization such as ASI next semester. I am also a part of the Titan Capital Management Finance program in the Mihaylo School of Business,

*** Students selected to sit on a committee are provided training, leadership and professional development opportunities each month. What is your availability for the fall and spring semester?**

As stated above, I will have 4 classes in the Fall and Spring, with 2 upper Finance classes in each of those semesters. I will not be working throughout the week because of my interest in my TCM finance program which will take most of my time; however, I will have time for extracurriculars such as ASI Governance Ambassador. I will also be available for meetings when necessary.

Following the fee review process, the committee drafts a report to the University President detailing their findings and any recommendations. **Student Success Initiative Advisory Committee (SSIFAC):** The Student Success Initiative Fee Advisory Committee was created in 2014, with the implementation of the SSI Fee. This committee is made up of students, faculty, and staff who work to ensure accountability and transparency are occurring with SSI funds by reviewing quarterly presentations from SSI-funded areas. Please rank your interest for one of the three student fee committees below:

*** What made you decide to pursue this position?**

I really want to be a voice for the campus and for my fellow engineering students who don't know how to work through Fullerton or who just need a little guidance. It would be a huge honor if I was able to get my foot in the door so that others like me can follow and make a bigger difference than the last.

*** What do you believe is the role of the students' voice in decision-making on campus projects and issues?**

I believe the role of the students' voice is to hear about the issues many of the students bring up or the complaints they have and try to address them. I also think it's about making the school look good and present ourselves in the best way possible when it comes to meeting and speaking.

*** Are you interested in topics such as academic curriculum, campus infrastructure, or program opportunities for students? If so, please elaborate. ***

yes, I believe that each student should know or at least be told of opportunities that may spark interest. campus infrastructure is also very important because it's what draws and keeps together our students and faculty and if there is an issue then it should be brought and fixed immediately. Academic curriculum is very important because not every student may know how it works and may waste a semester of classes or be put into a wrong class.

*** What are you currently involved with on campus?**

Nothing at the moment but I am looking for clubs and organizations.

*** Students selected to sit on a committee are provided training, leadership and professional development opportunities each month. What is your availability for the fall and spring semester?**

*** What made you decide to pursue this position?**

ASI in CSUF is large part of our college's community. From the discoverfest, I saw members of ASI recruiting people very effectively from communicating and using strategies and as I look through the instagram account and the official csuf ASI account, it seemed like I would be able to be involved in various school activities to improve the life in CSUF.

*** What do you believe is the role of the students' voice in decision-making on campus projects and issues?**

Students' voices changes the University. University is community for students, made by students, that affects students. Issues that occur in CSUF are most likely to be related to students of CSUF. Students' shared ideas and plans to create changes leads to problem-solving for other students to not experience certain incidents.

*** Are you interested in topics such as academic curriculum, campus infrastructure, or program opportunities for students? If so, please elaborate. ***

I am highly interested in the following topics that are mentioned. Being a student in the community among others, I myself have some concerns and problems that I would like to improve, and also my friends have dissatisfaction about classes structures, facilities including housings, bathrooms, campus, and etc.

*** What are you currently involved with on campus?**

I am currently enrolled in 16 units of classes from Monday through Thursday. Because I am a first year student, I am not very involved in various activities. Though through filling out this form, I believe I am starting my activities in the campus. Including ASI, I am currently involved in Criminal Justice Student Association and Alpha Phi Sigma.

*** Students selected to sit on a committee are provided training, leadership and professional development opportunities each month. What is your availability for the fall and spring semester?**

For the fall semester, I am always available on Fridays, Monday-Thursday vary by classes and other activities including band practice and concerts. For the spring semester, I will still be available on Fridays, but it might change in the future.

Other than that, I am currently talking with our Children's Center Director Lydia to do a collaborative event with the BOD and the Children's Center! I will update y'all if we can think of an event to volunteer at or host in collaboration, if you'd like to be more involved with the planning or have any ideas, feel free to contact me!

That's all I have! Good luck on your tests if you have any and I hope y'all have a great week 5! Love y'all!

Isabella Galvan, Board Chair:

Good afternoon everyone,

Happy Hispanic Heritage month! I encourage you all to support our Hispanic Titans. There's a fundraising event coming up, Somos Titans, on October 2nd. There will be a pre-concert fiesta at the Alumni house, starting at 3 pm, and a concert at Meng Hall with Grammy artist Poncho Sanchez. Also, I sent an updated Committee roster. Crystaal has emailed some of you about switches so please make sure you are aware of your committees. If I see any more unexcused absences or tardiness, I will have to schedule a meeting with you to discuss any time concerns. I recently met with the Directors of Titan Wellness and CAPS to discuss a collaboration with ASI and their services. I want to start a discussion between all of you to explore the awareness of students from the different colleges. I am also looking for student leaders to attend the monthly Student Health Advisory Committee. If you are interested in working with me on this developing project, please email me or see me after our meeting.
