# Compact Disk Rainbow

## Compact Disk

## Rainbow

Science Experiment with Teacher Veronica

### Materials

- A CD
- Flashlight
- A clear dish/bin with water

### >Tips:

Try doing this activity using natural sunlight. Try to make rainbows all over your space. You can even tape a sheet of white paper on a surface and paint over the rainbow reflection with matching colors.

### Directions:

Place the CD inside the clear bin, with the backside facing toward you. Next, flash the light onto the CD and explore what happens next.
