

Activity Share: Fun With Boxes

Age group: Preschool Age

Materials Needed:

- A Box of any size
- Collage supplies: paper, ribbon, yarn, paint, anything creative!
- Glue stick or glue
- *An adult could use a knife or scissors to cut the box as needed.*

Directions:

After deciding on what you would like to transform your box into, the adult could cut out doors, windows, eyes, mouth, etc. in the box. Now it's time to get creative and decorate or add embellishments to the box! In the photos the children added "hair" to the dragon, a "swing" for the leprechaun, and "stepping stones for a trap". The possibilities are endless!
