

## Activity Share: Nature's Songs

Age group: Toddler and Preschool

### Materials:

Paper

Crayons

1. Find an area outside where you can sit comfortably.
2. Sit quietly, close your eyes and listen carefully for the sounds of nature. What sounds do you hear? Are birds singing? Children laughing? Leaves rustling?
3. Together, draw pictures of all the things you hear making sounds. Discuss. Do you think you will hear the same sounds at a different time of day? How about during a different season?
