Developmental information

Using songs that utilizes children's names and rhyming words support children's self, social and language and literacy development. Singing silly songs are an easy and fun way for adults to engage 1:1 or in small groups with children that can help children learn their names, the names of others developing their sense of self-identity in relation to others who are familiar to them. Singing silly rhyming songs with children help children to practice listening and promotes their phonemic awareness as they begin to understand that some words rhyme while others do not.
