DRDP Measure: Fine Motor

Age Group: Toddlers

Children enjoy exploring all sorts of vehicles! Take your child's vehicle collection and use it for art! This activity is a great example of *process art*. Process art (vs. *product art*), is extremely beneficial for building confidence and fostering creativity! Furthermore, vehicles help your toddler gain fine motor development by using their hands to *grasp* and *roll* their vehicle. You can also incorporate color mixing into this activity!

Vehicle Tracks Painting
