

Activity Share: Sun Catchers or Faux Stained Glass Windows

Age group: Toddlers and Preschool

Materials Needed:

- Multi-colored tissue paper cut into 2-3 inch squares
- Clear contact paper
- Painters tape or masking tape

*Tip: Use lighter colors for greater effect. Separate colors if you want to talk about color differentiation. Use black tape to make different shapes for suncatchers (see image).

Directions:

-Step 1: Cut out two matching large rectangular pieces of contact paper. Carefully unroll and tape down corners or edges of one piece, sticky side up. (It's best to unroll partially and tape down then peel the rest of the backing.)

-Step 2: Have your child pinch and grab pieces to place onto the paper. Help them if needed. Talk about colors and textures.

-Step 3: When ready, use the 2nd piece of contact paper to cover the bottom piece of art and seal up with tape. Hang on windows.
