Gratitude Crescent Rolls

One special way my family and the center celebrate gratitude is by creating crescent roll gratitude snacks! Children love to take part in cooking experiences and with this activity kindness and gratitude mix in well. You can use any store bought crescent roll mix or make your own. Before rolling out the rolls, ask your child to create a kind note or a note of gratitude to sneak inside. Writing on parchment paper does the trick! They can write the note themselves or ask a parent for help. You can even type the notes. Once the note is in place, tuck it inside the crescent roll. Bake according to directions on package. Surprisingly the note stays in tact and offers a great surprise! Enjoy
