The Season of Giving: Local Food Pantries

Every year, the ASI Children's Center has partnered with student groups on campus to help collect food donations for families in need in our community. The preschool children also helped to deliver these donations to campus. This year as the global pandemic has altered our program operations, we have been unable to collect donations at the center. However, if you would like to make donations to families in need in Orange County or would like to refer students or families in need, please click on the images to the right for more information.
