

# Activity Share: Firework Art

Age group: Toddlers-Preschoolers

## Materials Needed:

- Paper
- Toilet tube or fork
- Paints
- Scissors (if using toilet tube)
- Glitter (optional)

## Directions:

- If using a toilet tube, have a parent or guardian cut slits on the bottom of tube (see photo).
- Squeeze paints onto a plate or tray.
- Dip toilet tube or fork into paint and stamp onto paper.
- Sprinkle glitter while paint is still wet (optional).

*Toilet tubes are a great way for toddlers to build fine motor skills (grasping, stamping). Preschool-age children can use forks to strengthen their fine motor development.*
