DRDP Measure: Measurement

Age Group: Preschool-age

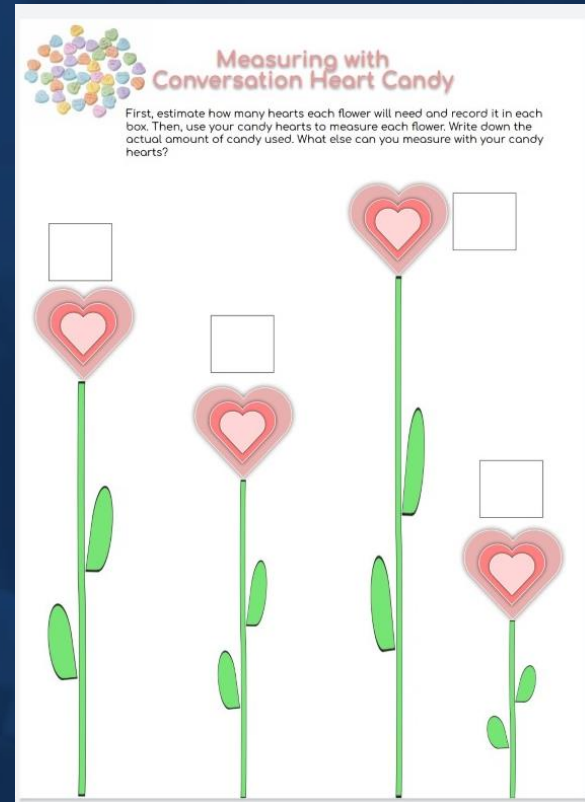

Conversation Heart Measurement

*Print out the attached printable.

- First, estimate how many hearts each flower will need and record it in each box.
- Then, use your candy hearts to measure each flower. Write down the actual amount of candy used.

What else can you measure with your candy hearts?

*If a printer is not available, draw various size lines on a sheet of paper and ask your child to measure the lines.
