Knowledge of the Natural World
Age Group: Toddlers-Preschoolers

10 Ways to Help the Earth

**Earth Day is on
April 22nd, 2021!**

**Celebrate the Earth today, and
every day by following these
simple steps!**

**Click on image to enlarge and
take you to the story. →**

10 Ways to Help the Earth

1. Read: [10 Things I Can Do To Help My World](#) By: Melanie Walsh
2. Plan a gardening activity with your child. Seeds such as lettuce, radishes, and carrots are quick growers! Also, flower seeds such as poppy or nasturtiums are quick seeds to sprout! Talk about how planting seeds helps the Earth by providing food and flowers provide food for bugs/insects!
3. **Recycle!** Set up a recycle bin in your home and have your child sort their trash vs. recyclables. Talk about what items are recyclable. Furthermore, use recycled items such as cardboard, plastic bottles, caps, etc. for art projects.
4. Talk about being kind to nature whenever possible. Nature includes animals, plants, and insects/bugs! Encourage your child to care for their environment whenever possible - turning off lights, conserving water, drawing on both sides of paper, etc.

Celebrate Earth Day, Every Day!
