Age Group:

Young toddler- preschool

Chicken Coop Dramatic Play

Dramatic play allows for imitation, hands on experiences, and increases vocabulary and language with labeling objects and engaging with back and forth communication.

Dramatic play themes can be part of a process, meaning they can be worked on over time. You can make chickens together with your child one day, shred paper another day, and set up your chicken coop. Throughout the process there is opportunity to talk about other animals that lay eggs and other facts about chickens.
