*** What do you believe is the role of ASI on our campus and how does that role relate to this position?**

I believe that ASI is here to advocate and bring awareness to the student body. It acts as a channel through which students can voice their concerns or ideas and feel heard and understood by their fellow peers. ASI brings ideas into fruition for the welfare of the campus community. Regarding the position, ASI helps to even further advocate for each college by assigning them board of directors. It delegates the responsibility to students who have knowledge and experience in the specified college. A Board of Director can convey the concerns and thoughts of their college in a way that no one else could because they have seen these experiences first hand. I believe that when you provide students with an advocate who they have likely seen around or shared a class with, they might feel more comfortable approaching them and feeling like they will be heard. Sharing the responsibility of acting like a channel for the student body, ASI and this position are instrumental to making CSUF feel like a second home for so many students.

*** Tell us about any relevant past involvement or work experience that you have and how it will help you as a Director for your college.**

Throughout my 4 years here at CSUF, I have been a part of Ballet Folklorico de CSUF, a student run organization that promotes the Mexican culture through song and dance. I have had the absolute pleasure of being on the executive board as president as well as a MESA cooperativa representative for over 3 years now. This position has provided me with so much experience relating to advocacy, policy, inclusion, and so much more. Being in this position has allowed me to listen and address concerns of our members and help them feel like their voice is heard, much like what I would be doing as a Board of Director. It has shown me skills that are helpful when trying to find a solution to a problem. Furthermore, running and attending executive board meetings has taught me how to work with different committees and make sure every board member is being heard. I've gotten the privilege to advocate for my organization at retreats for student leaders, ICC events, and more. It brings me immense joy to represent an organization I am so proud of and I know that I would apply the same skills and passion to my peers at the college of NSM.

When I was a representative of MESA cooperativa, I learned so much about what it means to represent and advocate for a group of people. Attending board meetings and events at which I was representing BF de CSUF was a very fulfilling role. These meetings brought me so much insight and experience regarding the allocation of funds, the strides for diversity and inclusion on campus, and the rewards and benefits of collaborations. Being a representative for an ICC gave a slight insight in to how ASI works and how it really is here for the students. As a Board of Director, I feel that I can use the experience I gained in MESA when discussing funding, advocacy, and awareness to the college of NSM.

*** Why are you applying to the ASI Board of Directors? What do you hope to accomplish and/or get out of the experience?**

Being a Board of Director for NSM is something I am really interested in being because I feel that I have gained so much first hand experience at what this college could benefit from as well as how we can make it feel more welcoming for students of this college. If elected Board of Director, I hope to advocate for a stronger advising system. One in which students can have a more curated advisor that share similar career goals, making the advising more intentional and valuable to the student. I feel that having this would help the student better coordinate a schedule with courses that will be helpful and beneficial to their career goals and/or grad school endeavors. Furthermore, I would like to advocate for a more available selection of courses. One too many times, I, along with peers, have encountered the problem of being waitlisted or not being able to get into a course that is necessary for graduation. This deters many students of their plans and discourages many students. As Board of Director, I would like to tackle this issue head on and prevent future students from feeling the stress of registering for courses. Overall, I would like to gain insight on the behind the scenes of what it takes to run the college of NSM and be a voice for my fellow peers. Along with this, I really would just love to get to know more of my peers as well as become a friendly face for any student who would like to bring up any concerns or comments.

*** Please state any other information that you believe should be considered in this application.**

To add on, I would just like to say that I have always dreamed of being a part of ASI, as I feel that it is a great way to really become familiar with the school and make this place feel like home. Student government has always made me feel seen and heard and being a part of that for someone else would be really amazing. As I approach my final months here at CSUF, I believe that serving as a Board of Director for my college would be really fulfilling and meaningful. Having been a Biological Sciences major and spent all 4 years walking the halls of McCarthy, I have formed a special appreciation for this college and would love nothing more than to advocate for it.
