We had 37 Social programs last fall and 8 Cultural program

Funding this fall was utilized as to continue to grow the programming ASI provides for the students to build community from many different perspectives. We succesffully attempted some new types of community-based programming this fall that helped grow community in new innovative ways. Those types of programs were called "listening parties" where we focused on cultural icons like Taylor Swift and Bad Bunny and built programs around their content. We continued our traditional programs also like concerts, movie nights, spoken words and special seasonal programming also this fall and were very successful.

## External Funding

Has your program attempted to generate funding from any of the following sources (please explain). Business support? Donations?
With inflation and the constant request for more support we look for ways to find resources outside of the budget that we have. We are working on sponsors to alleviate some cost associated with our events, but we are very reliant of the funding that is provided by associated students.

Club Council is a liaison between student organizations and the College of the Arts. This increases communication between students in the College of the Arts and promotes growth and success for organizations. AlCC recognized clubs are able to request funding for events and travel that benefit arts awareness on campus and career information for current students. This contributes to educational development and opportunities that would otherwise not be possible for students. Arts Week is our flagship event held every spring. This is an opportunity for artists to network, collaborate and showcase their work to the greater student population.
