# Environmental Sustainability Commission App: 24-25

COMPLETE

This application is for the Environmental Sustainability Commission Coordinator positions.

The application is open until filled and has a priority filing deadline of Friday April 12th at 5:00pm.

The application will require you to prepare and upload question responses and your resume. Please review the application thoroughly prior to preparing to submit your application.

The Environmental Sustainability Commission shall be responsible for raising awareness of environmental and sustainability issues on campus, developing events and programs, advocating for the inclusion of sustainability best practices within the context of ASI's operations and corporate responsibility, and serving as a liaison between interested student groups and ASI.

### Academic Eligibility:

Any applicant must be in good standing, must not be on probation, must have earned a CSU Fullerton semester grade point average of 2.0 and a CSU Fullerton cumulative grade point average of 2.5 for all classes at CSU Fullerton during the semester prior to their candidacy, and must maintain these standards.

Undergraduate students must earn six (6) semester units of credit per term while holding office. Graduate student must earn three (3) semester units of credit per term while holding office.

These positions are for the 2024-2025 school year. The position term begins on June 1, 2024 and ends on May 31, 2025. Some meetings and activities may be required prior to the beginning of the term for transition purposes.

Applications must be fully completed and submitted prior to the close of the application. If an application has been started, but not been fully completed and submitted at the time the form is disabled, the form will not notify you or close, but will automatically disable in the background and will not accept your application when you try to submit.

**\* Tell us about yourself (tell us about your background, your past experiences, and what makes you a good candidate for the position; include any information that you think appropriate and important for us to know):**

---

Prior to attending CSUF, I was born and raised in Pomona Ca roughly 25 minutes away. I grew up as the oldest female child out of 6, I have four younger siblings and one older step-sibling. Currently, I am an English Major and I should be picking up a minor in Law, Politics, and Society; I am deeply keen on joining the Law Field. I am also a proud Guardian Scholar. Formerly, I hold experience in working with people of all ages and backgrounds. Some of my past experience in working for the City Of Pomona Ca - specializing in community services, along with currently being a Programming Assistant for CSUF's ASI. My previous role in both these jobs adds on to why I would be a good Candidate for this position of environmental commissioner. The reason being is because through my position of being a community service specialist (C.S.S) has provided me with an array of environments to work in; from congregate cafeterias, parks, recreational centers, and even classrooms. All of which were experiences that I bring to my current job as a programmer assistant (P.A). In addition to my experience, I am fully confident that my abilities and characteristics would adapt well in any environment, within any circumstances.

**\* Tell us what you think the purpose of our ASI student government is and why you want to be a part of ASI leadership (tell us why you think ASI does what it does, what you hope to get out of the experience, and what you hope to learn):**

---

To keep it brief, to make the campus a more structured and desired place. I believe that the purpose of ASI is to not only provide students with necessary structure to function like a well oiled machine but , as a way for students to be able to advocate and implement their interest to their campus. As for me, I want to be a part of ASI Leadership because I should be a part of ASI Leadership. By saying this, I am saying that CSUF is my home and I see ASI as a way to truly make my experience personal to myself and to help others. Even being a part of the programming department now gives me a sense of accomplishment and connection that I crave. Each of these reasons are why I believe that ASI does what it does, it is to enrich the lives of their students and their students' experiences. Truly, through this experience I want to learn what it is like to work for such an enormous organization and I want to gain the experience of holding a significant role.

**\* Which positions are you interested in applying for?**

---

CEC Coordinator

**1. In your own words, describe the purpose of the Environmental Sustainability Commission?**

- The purpose of the environmental sustainability commission is to raise awareness and advocate for all things within one's control of the environment, including raising awareness on how to sustain it. Along with this I also believe that another purpose is to show, teach, and encourage others to practice in more eco-friendly and sustainable lifestyle habits.

**2. Why is it important to promote environmental sustainability to students at CSUF?**

- It is extremely important to promote environmental sustainability to students at CSUF because I believe that the way an organization not only maintains their environment but how they regulate the performance of their day to day tasks, like patrolling campus with mainly EV, is a reputation of both the organization's standards and the students standards. I think that it is important to put emphasis on how important it is to have environmentally sustainable practices like reducing, reusing, and recycling because everyone is affected by the environment; especially the ones closest to them. I also understand that many college students live on a very tight budget, so environmentally sustainable practices can help reduce the amount of money they contribute to single use things and truly get their money's worth of the things they do buy.

**3. What position(s) are you most interested in and why, including any relevant experience you have for this type of position?**

- The position that I am most interested in is the Environmental Sustainability Commission because I see the earth as a provider for all things we truly need. I think it is our job to ensure we take care of the earth because it has always taken care of us. I also believe that taking the action to take care of our campus would cultivate a happier place to attend. I am also interested in this position because my prior experiences in working in parks and recreation have shown me how beneficial nature is to both our physical health and mental health.

**4. Describe the ideas or goals you have for the next year, in regards to the Environmental Sustainability Commission?**

- Regarding the goals I have in mind, I would like to mainly raise awareness and educate others on what environmental suitability is, provide tips on ways they

can live more eco-friendly, and to truly show them that environmentally sustainable practices not only benefit the world but their own pockets as well.

**5. Describe how you would promote the activities and events of the Environmental Sustainability Commission. \***

- To promote the environmental sustainability commission(ESC) I would like to table, pass out sustainable merchandise like reusable water bottles and ziploc bags(with the ASI/ESC) logo, possibly host a movie night where we show movies based on the environment(like WALL-E , The Lorax, and The Day After Tomorrow) .

# Maliyah “Mali” Sok

---
