Age Group: 2-year-olds to Preschool-age

### Citrus Fruit Water Sensory Bin

#### Materials needed:

- A waterproof bin with clean water
- Plastic ice cube trays
- A tray of citrus fruit cut in different ways (lemons that are a bit over ripe are great because they are easier for kids to squeeze)
- Various utensils to allow children to explore (eye droppers, ladles, small cups, tongs, whisk)

\*Always keep an eye on children during water play

Tip- You can use citrus pieces leftover after you squeeze them for an "agua fresca" (fresh fruit infused water)
