DRDP Measure: Fine Motor
Manipulative Skills

Concepts: Manipulates objects, using hands, with strength, accuracy, and coordination.

Age group: Preschool

Hammering Golf Tees in a Pumpkin

Materials needed:

- child safety goggles
- pumpkin
- hammers (wood or plastic)
- wooden golf tees

Procedure:

The child holds the golf tee with one hand and hammers it into the pumpkin with the other hand! When this process is finished we use pliers to remove the tees so more hammering can be done! (if the tees stay in the pumpkin overnite, they are hard to remove the next day.)
