Age Group: Toddler and Preschool

Mural Painting

This is a good indoor or outdoor group activity. Place a long, wide, heavy paper on the sidewalk (or tape it to a fence). Place containers of paints and brushes at intervals along the paper. This activity encourages the children to share space and supplies. It helps children to build respect for one another's work and creativity as well. Many children can participate at the same time.

*A variation for this activity could be to provide varying widths of brushes and small paint rollers .
