DRDP Measure: Perceptual-Motor Skills and Movement Concepts

Age Group: Infant/ Toddler

Ribbon Dancer

Spatial, directional and body awareness are all part of perceptual motor skills.

Dancing with ribbon and scarves allows children to coordinate their movement through space. Make this simple ribbon dancer at home!

Use a plastic shower curtain ring and tie strands of ribbon!

[Click here](#) for the movement cards. Have your children read the symbols and make the same movement with their ribbon dancers!
