Borjas shared information on the process of the University President’s search and shared that he would be preparing for the November meeting by gathering information from students. He asked the Board to share any characteristics that they feel are important for the new President of the university.

- Good – accessibility is important
- Waymire – promoting and encouraging shared governance. She shared that she appreciates President Virjee’s passion for civic engagement.
- Abu-Elhaija – asked if the search would be different from other campus search processes, and if there would be an on-campus forum.
  - Torres yielded to Edwards and he shared, for several years, the practice has been, due to the confidential nature of the search, that interviews happen with the Presidential Search Committee, a recommendation is sent to the BOT, and the CSU BOT decides, and makes an announcement to the campus. There generally is no on-campus interview process.
- Hesgard – asked that they are ready to take on the responsibility of the population of campus (number and diversity/inclusion for this campus)
- Stohs – spoke to Abu-Elhaija’s question and shared that rules have not changed to his knowledge. Committee meets, selects top 5-15
candidates/interviews; committee with members of BOT, narrows down to top 3 candidates. Top 3 candidates enter the final interview process through the CSU. There has not been an on-campus visit from candidates for many years.

- Waymire – wants the president to make students a priority not the BOT.
- Aldazabal – encouraged all to speak up and share what they want from next president. She further shared that they must be present, not traveling, have an open door policy, shared governance focus, values inclusivity, creating opportunities for the student population, and a focus on growing the black student population.
- Stohs – encouraged the students to remember, management on campus (MPP) serves at the will of the people to whom they report. The President serves at the will of the BOT. So, as much as they want to serve at the will of the students, they report to the BOT and must keep that in mind.

Borjas thanked all for their input. Shared that until November 9th he is gathering information and asked that students continue to share their thoughts.

The Interfraternity and Panhellenic Councils Annual Pursuit of Excellence Ceremony is November 26th in the TSU Pavilions. This is a night for us to honor our chapters for exceeding the standards and expectations of our four pillars: Brotherhood/Sisterhood, Leadership, Scholarship, and Service.

How can the BOD support the Interfraternity Council?
The BOD can help support by pushing for Fraternities and Sororities to be given an opportunity to present during the days of orientation. Yes, Student life and Leadership gives a quick synopsis of the variety of different organizations CSUF has to offer for incoming students. However, this is not substantial enough to drive hesitate students towards joining a FSL organization. Having a select time for FSL organizations to table during orientation days would increase the exposure of the many beneficial aspects FSL has to offer.

What do you believe is the role of ASI on our campus and how does that role relate to this position? *

The role of ASI is to serve as the governing body whom answers to the wants and needs of the student body. ASI relates to the Board of Directors position because whomever holds the representative seat must uphold the values of the students, serve for the students, and represent the students. The role I am applying for relates directly to the role ASI has, on a smaller scale. Rather than represent the campus as a whole, I will represent Mihaylo and my fellow students. I will serve as the voice and the source of communication between the general student body, campus partners, and student leaders with the purpose of helping Titans reach higher.

Tell us about any relevant past involvement or work experience that you have and how it will help you as a Director for your college. *
My previous experience and the skills gained from my time serving as Director of Alumni Relations for the United Latino Students Association, will contribute tremendously towards my performance as the Director for Mihaylo College of Business and Economics. As the Director of Alumni Relations, I made it my duty to answer to the needs and requests of the student member body. I was able to establish quick and efficient communication between 400+ alumni and our organization, and I was also able to connect student members with Alumni who were established professionals within the student's field of interest. Along with my personal duties, I assisted in the administration and planning of various professional events meant to equip our student members with the necessary skills required to succeed as post graduate professional.

I have also recently been appointed the Vice President of the Orange County Hispanic Youth Chamber of Commerce. While accepting the position, I have made it my promise to the student member body to assist in the governing of the organization to the best of my abilities, to uphold the values of our organization, and to direct the organization towards a vision that our members collectively share.

My experience as both the United Latino Student Association Director of Alumni Relations and Vice President of the Orange County Hispanic Youth Chamber of Commerce have built my foundation for professionalism and dependability required to serve as the Director of my college.

Why are you applying to the ASI Board of Directors? What do you hope to accomplish and/or get out of the experience?

I am applying for the ASI Board of Directors because of my passion behind education and my ability to serve as the voice of a student body. I have enjoyed both my experience in leadership and the fulfillment that empowering other students brings me, while still being a member of the same student body that I serve. The camaraderie behind being a leader of a student body that you directly identify with, empowers both the leader and the students. As a Director, I hope to serve the students of the Mihaylo College of Business and Economics through camaraderie by personally listening to the opinions and thoughts of students, whether it be through direct conversation or through comments heard in the hallways of Mihaylo, and applying that towards any decisions I make as a Director.

I also hope to better the Titan experience for students through encouraging all students to further involve themselves with organizations on campus and to chase leadership within their preferred organizations. Through various organization affiliation and leadership roles, I have personally experienced the growth and enhancement of the college experience firsthand, while also watching other students who follow similar paths grow and professionally develop. As a result, I feel that affiliation and leadership can drastically change the college experience and promote professional growth.
While serving the students of Mihaylo as the Director, I hope to continue to grow myself as a professional and to leave my mark at Cal State Fullerton. Cal State Fullerton has been my home since 2015, has been the center of some of my favorite memories as a student, and has provided me numerous opportunities that have served as the bricks to the foundation of my future. As I approach the final stretch of my time at CSUF and begin my senior year, I have decided that I want to give back to the campus that has given me more than I could have ever imagined. I would love nothing more than to apply all I have learned throughout my time as a Titan, to serve fellow Titans.

Please state any other information that you believe should be considered in this application.  

If I am appointed Director, I will not be employed in order to allow me to further invest my time and efforts into the position. I will be managing my time between 15 course units and my position as Vice President of the Orange County Hispanic Youth Chamber of Commerce. I have also already spoken to my advisors from the Orange County Hispanic Chamber of Commerce and they are willing to work with my time restrictions if I am appointed as a Director amongst the board.

Good afternoon all, I hope your weekend was fantastic. With one month already done with classes, there is a lot to still go on. Work hard but make sure you’re taking care of yourself! Get sleep, drink water, and take a few moments throughout the day to feel good!

ASI handbook

- I recently had a meeting with Kaetlyn, Scott, Keya, and Drew about this new reference document that I would like to make for all ASI student leadership. Should include, at this time, a student org chart, directory, and campus directory.

Meeting with chief Aguirre

- Execs and Mr. Chair all met with the chief of police, chief Aguirre, and his two captains. In general, the relationship between UPD and ASI is productive and will continue to be productive. We talked about a slew of larger concepts, and how we want our working relationship to be. If you see any CSO or Officer on campus, please give them a thank you! They are leaders and a model in what all police departments should function.

Hispanic/Latinx heritage month

- I was invited to speak at the Hispanic/Latinx month reception! Shout out to Ana for her passionate speech!

Gaming students of CSUF

- I met with the club president and this group is looking into making a space in the TSU where we have higher end equipment for video editing, designing and gaming. Cool stuff coming down the pipeline!

EVENTS

- CSUF angels night this weekend and concert under the stars! A lot of fun things still going on around campus!

CSSA
Chico was amazing and I feel re-energized to make the change we need on campus. So many ideas, so much to share, but keep on the lookout for our vlog about it!

There’s always more to report in but I think this is a long enough one! As always, my office hours are 9-10 Wednesdays! Feel free to reach out for anything!

GO TITANS!

ASI VICE PRESIDENT
ANA ALDAZABAL

Hello everyone! Below are my reports:

CSSA:

Social Justice and Equity Committy:
- This was the introductory meeting, we all went over areas of interest and reasons for joining this committee.
- Because of the size of the committee and the limited amount of time we have as a committee I am focusing on two areas to take action on:
  1) LGBTQ+ students
  2) Undocumented students

- Meghan and I have already taken action toward setting up meetings with those communities to talk about what we can do through CSSA/SJEC

SEARS Survey:
- Make sure you all are aware of what it is, the importance of it, and ways to market it.
- More information in Maghan’s report.
Link: https://www.csac.ca.gov/sears

SCHOLARSHIPS:
- I sent out an email with the digital handbill so that you all can post or send out to orgs/clubs.
- Please make sure you all are grading scholarships.
- Please market them and wear the shirts!
Hello everyone! Thank you to those who supported the Ambassador Program! We currently have 37 ambassadors (many of those shadowing more than one student leader resulting in a total of 65 sign-ups) after both orientation meetings! Rebecca and I met with the Titan Dreamers Resource Center on Friday, Sep. 21, to conduct a Know Your ASI presentation this Wednesday, which will act as the one and only make-up orientation Ambassadors. Students can still sign-up all year long by emailing me atasicco@fullerton.edu. CEC also had their campus clean-up on Friday, Sep. 21, and had 12 volunteers! We hope to see more BOD presence in the future as there was only 3 student leaders present (Rebecca and 2 BOT members). Another podcast episode is being released Tuesday, Sep. 25, with Karen Perez, the Street Team Director. The Angels Game is this Friday, Sep. 28! I hope you all bought your tickets at Information and Services! Lastly, Concert Under the Stars is this Saturday, Sep. 29, and I would like it if every student leader attended. There is potential for a great tabling opportunity at this event!

Hello everyone! Take a moment to breathe as the midterms start and do your readings and assignments! This past week looked like this for me:

Commissions

- Co-facilitated the first Presidential Appointee/University Affairs Commission meeting of the semester with Sara O'Toole, the ASI PAC Lead.
  - Had a modest turnout, hoping to have more appointees attend in the future, but had great discussion and questions from those in attendance.
- The second Environmental Sustainability Commission meeting was held by the ESC team.
  - Daily Titan came out, had new student faces, and continuing to work on growing this commission.
- ESC also met with the SRC to discuss how to help in the process of getting the building LEED certified (as an existing building).
  - Talks of doing education around conserving water by taking shorter showers

Committees

- Had several meetings with students to appoint them to university committees
- Still looking for students for the following committees: General Education, Parking
  - Advisory, Library, Graduate Education, Informational Technology
- Attended TSCBOT Operations Committee
- ASC Board of Directors Meeting
- Attended another Planning, Resource, and Budget Committee meeting
- Met with the IRA Chair

ASI CHIEF GOVERNMENTAL OFFICER
MEGHAN WAYMIRE

Hi everyone,

CSSA - CHICO

➢ Met with a civic engagement task force and discussed strategies on other campuses
➢ talked about ballot bowl
➢ talked about the creation of CSSA’s “CIVIC” which is an internal civic engagement competition between each campus
➢ Discussed the relaunch of SEARS which is a student survey that is used to create the estimated cost of attending a university. We questioned how this process can be more equitable and representational, as it currently is not due to limitations. Additionally, they are asking that ASI market this survey which will randomly be sent out to 1,500 students on each campus.
➢ Received reports from the Alumni Council, Academic Senate, Chancellor’s Office, Board of Trustees, and CSSA Exec Team
➢ Reflected on CSUnity and discussed ways it could be improved

Reach out if you want more in-depth info and if you want to attend read the one pager I handed out and fill out an interest form.

QUESTIONS
Tristan Torres, Board Chair:

Snacks are in the BOD office!

All the funding and funded council assignments have been sent to you all. Let me know if you have any questions or would like to switch with someone.

Strategic Planning Committee meeting this Friday, so if you have any questions or things you would like me to bring up regarding the strategic plan please let me know!

Have a great week! If you need help with anything or have any questions please text me or stop by my office!

Maisune Abu-Elhaija, Vice Chair/ Treasurer:

1. Please remember to review the agenda for Board meetings, specifically the consent calendar, because contingency requests and contract approvals for single expenditures of over $5,000 that have been approved by the Finance Committee will be on the consent calendar (unlike previous years) and will not open up for discussion unless a board member requests to do so at the meeting.

2. The search committee has completed in-person interviews and will have a wrap-up meeting with the Vice President of University Advancement this Friday to make their recommendation for the position to be filled.

3. We have put contingency request and contract approval protocols on the website so please let your ICCs know to review that.

4. The Finance Committee is in the process of posting FAQs on the website related to budget.

5. I have begun visiting ICCs this week. My visits will be spread out over the next month due to there being so many ICCs. My goal is to visit everyone once each semester.

Best,
Maisune Abu-Elhaija

Maria Linares, Vice Chair/ Secretary:

Happy Monday everyone,

I hope you are all caught up with your class assignments and you all got some sleep this weekend.
PLEASE READ: IMPORTANT INFORMATION ABOUT OUR ARTICLES OF INCORPORATION!
The Associated Students of CSUF was initially formed as an unincorporated association in September 1968. In September 1975, ASI CSUF was chartered as a nonprofit corporation by filing Articles of Incorporation under General Nonprofit Corporation Law of California.

The original Articles of Incorporation were amended five times between 1976 and 2013. All five amendments changed only specific portions of the Articles. There are portions of the Articles that are not consistent with current California Nonprofit Law. In addition, there are provisions of the current law that are not included in our Articles. Restating the Articles of Incorporation resolves the issues by consolidating the previous amendments, removing unnecessary sections, and adding needed additional provisions. Furthermore, if you would like to learn more about this I highly encourage you to attend the Governance meeting this Thursday, at 2:30 pm. Carol will be explaining this in detail. Also, we will be in the President’s room this week!

- Last week, I attended the Presidential Appointee/University Affairs Commission. I will be sitting on a university wide committee and then reporting back to PAC. I do not know which committee I will be sitting on, but I will keep you all posted.

- I attended the Ambassador Orientation last week. To say I am excited is an understatement...

- I attended the Hispanic/Latinx Heritage Month Reception where VP Ana Aldazabal introduced keynote speaker Julian Jefferies. A lot of work went into that event, I hope some of you were able to attend.

- I attended Constitution Day Jeopardy which was hosted by The Division of Politics, Administration, and Justice and the Political Science Student Association. Thank you Meghan, for announcing this event!

- As mentioned last week, I will be starting my 1 on 1 meetings with my Governance team. The Doodle poll has gone out and they don’t know this yet, but I have a small surprise for them for when we meet.

Have a wonderful week and see you tomorrow at our BOD meeting!

Kindly,

Maria Linares
