What do you believe is the role of ASI on our campus and how does that role relate to this position? *
ASI is the name of the student body at Cal State Fullerton. I believe that the role of ASI is to advocate for student rights, listen to student's needs and requirements, and work with senior officials in order to actually make changes that will benefit all students in the CSUF family. ASI members act as representatives of the thousands of students on campus and ensure that student voices are being heard. After all, the majority of a University is made up of students, and it is extremely important to keep students happy and healthy, as well as reduce their stress to ensure they have a wholesome and positive college experience. I am applying to be the student representative of all Engineering & Computer Science students. I believe that I am capable of collaborating with students to bring forth their issues to the ASI table, as well as contributing to the general student well being, both physically and mentally. I am passionate about helping people, and I am willing to go the extra mile in order to serve the students of CSUF. I have attended various ASI events in the past year, and I am curious to know what work goes into ASI in the backend. I would love to be able to take up a leadership role and help as many students as I can before I graduate from this beautiful institution. I want to give back to CSUF what it has given me, and I feel like this is the perfect opportunity to do so!

Tell us about any relevant past involvement or work experience that you have and how it will help you as a Director for your college.

During my undergraduate degree in India, I volunteered my time to an organization called AIESEC. AIESEC is the world's largest youth–run not-for-profit organization. It is present in over 100 countries and is recognized by the United Nations. I volunteered a few hours each day and all weekends for a year to this wonderful organization. I was part of a department called OGE – Outgoing Global Entrepreneur. Our department's main goal was to connect local students with technical and non-technical internship opportunities abroad. I was a team leader with a team of 5 people working under me. We were responsible for the entire process – from the resume screen to the interview to matching that student with a relevant internship, and then assisting them with flight bookings, health insurance, visas, and an outgoing seminar to prepare them on how to live in a foreign country for 2 months. During my time with AIESEC, my team and I were able to send 10 young college students for various technical internships to Egypt, Greece, and Turkey. We were successful enough to raise $2800 in a span of 3 months for the local chapter. In that one year, I have learned so much about leadership, how to manage a team, how to work with a diverse set of people, time management, and most importantly, how to ensure that my team is happy and motivated to achieve their monthly targets. This experience really brought out my people skills, and that is when I realized my passion for connecting and helping people achieve what they want to.

Why are you applying to the ASI Board of Directors? What do you hope to accomplish and/or get out of the experience?

I am curious about how ASI actually works from the backend, as I have seen the amazing events and changes that ASI has made happen for the students of CSUF in the past year. I really want to be able to contribute as much as I can in order to make sure that students can voice their problems or concerns, and that work actually goes into ensuring that these concerns and problems are addressed and solved. I am also very curious to know how an actual governing body functions, as I have had limited experience in AIESEC with a hierarchical structure. Furthermore, I would definitely like to take up this leadership position in order to develop my own interpersonal skills further. I hope to accomplish something that I am proud of from this experience, small or big. I want to build my network, and also wish to help as many students as I can with any problem that they may have. Also, I definitely want to develop myself and become a better person in terms of my leadership and interpersonal skills, and I believe that such a position is the perfect place to achieve this.

Please state any other information that you believe should be considered in this application.

I am good friends with Ash, the previous ECS BOD member at ASI. He has pushed me to apply many times in the past, but I was finally able to build up the courage to apply this time! Fortunately, there was an opening, and I thought I should give it a shot. His passion and eagerness to be a great representative for students has definitely rubbed off on me, and I consider him my mentor when it comes to all things ASI. I am grateful that I have such a good friend who has taken up this position before, and if I am selected, I am confident that I will be able to learn quickly along with the help of my mentor Ash. This application is all due to his support and encouragement.

Events/Meetings Attended:
• Meeting with President Virjee & Student Leadership
• Will be meeting with Greg Sacks regarding Commencement

Announcements:
• Voter Registration push & support students to register for Ballot Bowl
• ASI open positions push

VICE PRESIDENT
Skylar Soria

Happy 3rd week of school everyone! Only 12 weeks left! Just a reminder that All Day ASI is going to be happening on September 17th on YouTube Live. Programming had their first virtual concert on September 4th featuring our very own Willa Mar. ASI also had the first street team meeting of the semester. Please let me know if any of you are interested in joining the Ambassador program where you can have students from street team shadow you!

Marcus and I had a meeting with Greg Saks, V.P of University Advancement. At this meeting we talked about what commencement will look like for students that are graduating in 2021. As well as that are the other available options for those who graduated in 2020 and what an in person ceremony will look like for them. We also spoke about the Titan Program Board, which alumni networking site that is connected to the career center. This is a relatively new resource so please spread this information down to your funding and funded councils that you sit on.

This past week was my first meeting on the Mental Health Committee. At the meeting we were told what the numbers of caps looked like over this past summer and compared them to summers in the past. A new program that CAPS is working on is called Wellness Coaching. This is for students who do not have a full diagnosis, but need someone to talk to. It is designed to help lower the stigma around therapy. Caps has also created what a virtual walkover looks like as there can no longer be in person ones under these circumstances.

This past week Marcus and I shot videos for convocation and the ASI scholarships. Convocation is going to be on September 16th. For the ASI scholarships the applications are currently open and will be open through October 9th. They can be found on the ASI Website.
Marcus, Lauren, and I are currently working on a voter registration campaign called Pass the Ballot. We are in the process of collaborating with the other CSU ASI Presidents and V.Ps. We are still in the process of working on this campaign, but we cannot wait for you all to see it!

CHIEF GOVERNMENTAL OFFICER
Lauren Nicole Loeb

Summary:
Last week I my Lobby Corps team and I held our first official meeting of the semester. We talked with students about what Lobby Corps is and out plans for the upcoming semester regarding civic engagement and the elections. I have been sharing information regarding the Ballot Bowl with different faculty members and departments. Part of the executive team met to discuss issues surrounding Title IX. We brainstormed programming ideas that could possibly be implemented by other orgs on campus. I attended a meeting on Voter Education and Engagement with the office of Government Relations. I also attended the Civic Engagement Work Group where we talked about getting information to students regarding the election.

Events/Meetings Attended:

  Nicole, Janica, and I met and talked about information regarding the new Title IX policies and discussed how we could educate students on this topic and the possibility of adding information regarding Title IX and mandated reporting to syllabi each semester.

- Voter Education and Engagement Campaign Meeting

  We talked about events and opportunities to engage students before and after the election. Faculty is aware that the students may be affected emotionally after the results of the election come out and they want to create spaces and events for students to debrief. We also talked about how departments can have important critical conversations prior to the elections for those could have that have questions.

- Civic Engagement Work Group

  I attended the Civic Engagement work group with CSUF faculty members to discuss events that are being planned surrounding civic engagement. This week we focused on outreach to students and how we could get students more involved.

• I am working with the Office of Government Relations and other faculty members to host a Q&A event with local elected officials to talk about what their roles are in politics currently. We currently have three out of the four panelists confirmed for this event.

- Continual consultation occurs prior to decisions being made
The Fullerton Way

- We all work together to make CSUF the best possible university.

- Faculty, administrators, staff, students, alumni, and community members.

- We consult with the relevant constituencies and committees before making recommendations or approving policies.

Selene Hanna, Treasurer/Secretary:

Hello team! Hope you enjoyed the long weekend.

Our first finance meeting went well, shout out to Erick, Maria, Monique, and Tina for contributing and asking questions.

This week on the Finance committee we’re voting on a few items:
- The Reserve Policy
- The Procurement or Tax Policy
- Executive Senate Additional Guidelines (including gift card requests)

You can expect to see a quote or joke every report from a board member.

Monique chose this week’s joke - it’s “What do you call a fake noodle?”
Answer will be given during meeting 😊

Take care,
Selene Hanna

Seleena Mukbel, Vice Chair:

Welcome back everyone! Our second Governance Committee meeting will be this Thursday, September 10th at 2:30 pm.

In our last meeting, we appointed Anjali Iyer as the BOD for the College of Engineering and we will have Board of Directors approve this decision.

Anjali Iyer is pursuing her Masters in engineering and has shown dedication and preparation for this role as she did international work that benefits students that include:

- Working with a youth nonprofit organization recognized by the United Nations
- Worked with a global entrepreneurship that provides internship opportunities to students abroad and assisting them with flight bookings, health insurance, visas, and ongoing seminars to prepare them on how to live in a foreign country for 2 months

The appointment for the College of Education is still pending.
We interviewed an applicant in our last meeting who provided an outstanding presentation; however, the board’s consensus was that we should not make any final decisions until we interview the other applicants during our next government committee meeting on September 10th.

Maria Linares, Board Chair:

Greetings ASI,

I hope you all had a restful weekend.

Nicole and I had our first Academic Senate meeting. They passed a couple of resolutions which you can find on their website. I will post the link below. Our ASI President attended the meeting and shared ASI priorities for 2020-21. Provost Carolyn Thomas also stopped by to introduce herself.

This link will take you to the resolutions that passed AS on August 27th
https://www.fullerton.edu/senate/publications_policies_resolutions/resolutions.php

Informational:
One of our many responsibilities as Directors, is to grade ASI scholarship applications during both Fall and Spring semesters. Historically, we have done this towards the end of each semester. Please keep this in mind so you are not overwhelmed when the time comes. Our ASI Vice President will share more once she has all of the details in place. It is a pretty rewarding time, promise.

Meetings:
- President Virjee and Dr. Vigil
  - Discussed collaboration with the university for voter turnout
  - Titans Together and addressing anti-racism practices
  - Technology policies: we currently have approved and assigned 1500 laptops
    - We still have 1,000 laptops available and 500 MiF1 hotspots. Please encourage students to request a device if they need one. The process is fairly quick and easy. Here is the link
      https://www.fullerton.edu/it/students/equipment/
  - We have approximately 41,000 students enrolled this semester
- ASI Leadership Check-in meeting
  - Chief Raymund Aguirre joined our meeting to share a couple of updates
    - There are various trainings in the work for the department
      - Implicit bias trainings
      - Use of force trainings
      - Hate crime investigation policy review
      - Game Changer: please reach out to Keya and Marcus as they both attended this event and have more information about it
Have a wonderful rest of your week team. See you all (virtually) at our Board of Directors meeting.
