4. **Consent Calendar**

   **Decision:** There were two items on the consent calendar. The calendar was adopted by unanimous consent.

   a. **11/02/2021 ASI Board of Directors Meeting Minutes**

   b. **10/28/2021 Children’s Center Advisory Committee Minutes**

5. **Public Speakers**

   Members of the public may address Board of Directors members on any item appearing on this posted agenda or matters impacting students.

   Ed Callum, Director of Faculty Affairs and Records, oversees student opinion questionnaires. Student opinion questionnaires have been distributed electronically for three semesters; they will continue to be distributed electronically. There has been concern among faculty as response rates have dropped through the duration of the current pandemic. Callum is appealing to the Board of Directors to take the survey and to encourage students to do the same. The student opinion questionnaire is a means of sharing concerns and expectations with faculty. The surveys are used for the evaluation and training of instructors. Surveys allow for modifications to course instruction for current and future students. November 17th, 2021, Student Affairs will be sending a save-the-date email. Fall 2021 SOQ administration window will open Monday, November 29th. Deadline for submission of surveys is Friday, December 10th.
A public comment has been submitted online and will be distributed to the board.

6. **Time Certain**

a. **1:30pm: Carl Jones, Chief, University Police Department**
   Carl Jones, Chief, University Police Department, spoke with the Board about the current UPD campus safety protocol. He shared information on the UPD. UPD is a full service police agency. The UPD mission is to provide a safe and crime-free environment on campus. UPD is developing a streamlined approach for response to individuals who may be experiencing a crisis; to avoid triggering individuals through the presence or appearance of uniformed officers. A special task force has been assigned with preventing theft of catalytic converters.
   - Samaniego asked, why do all UPD vehicles have displayed a blue-lives-matter decal? Jones answered, UPD vehicles arrived from the factory with the blue-lives-matter decal. The UPD is not associated with the group self-labelled "Blue Liver Matter". The blue-lives-matter flag was adopted during the 1970's as an homage to those who served as law enforcement officers prior. Samaniego requested further dialogue on the matter take place at a later time.

b. **2:00PM: Greg Saks, VP University Advancement**
   Greg Saks, VP University Advancement, shared a presentation highlighting the campus funding campaign. The presentation is an attachment to the minutes. University Advancement includes all forms of external relations. University Advancement as an organization acts as a bank for all gifts/donations given to the university as they cannot be given to a state-entity.
   - Chammas asked, does CSUF participate in Giving Tuesday? Saks answered, yes, two crowd-funding events occur in October. Giving Tuesday occurs the week of November 28th.
   - Dr. Edwards commented, the food pantry opened in the Fall Semester of 2020 in part a result of funding raised by Saks and the UA team.
   - Stanbough shared, a description of how CSUF has improved including more funding for programs as a result of Saks and the team.

c. **2:15 pm: Dr. Susan Barua, Dean, ECS**
   Dr. Susan Barua, Dean of the College of Engineering and Computer Science, shared a presentation regarding the goals, and key initiatives for the college. The presentation is an attachment to the minutes. One focus of ECS is the retention of female students within the college.
■ Carlsen asked what decision has been made between in-person v. online courses for the college. Dr. Barua shared 100% of courses will be in-person during the spring semester.

■ Mitchell asked about the restrooms in the ECS building, and if there are plans to equate the number of restrooms for male/female. Dr. Barua answered, every floor of the ECS building currently has one restroom for males, and one restroom for females. One of the restrooms as of recent has been converted to a gender neutral restroom.

■ Hallett shared after touring, and discussion with female students of the ECS building, many female students have voiced concerns regarding gender neutral restrooms as their cultural/ethnic/religious backgrounds restrict them from using shared restrooms. Are there any plans to accommodate the need for more women’s restrooms in the ECS building? Barua answered, all first floor restrooms are currently being renovated. The decision previously made to convert a number of female restrooms to gender neutral restrooms was based in the demographic data for the ECS building. The restrooms were converted despite submittal of a letter of protest from Barua.

■ Dr. Vigil asked if ECS tutoring is voluntary for students, and how many students participate in tutoring services? Dr. Barua shared that tutoring is voluntary, however, the services are promoted and advertised throughout the ECS building and social media. Students who are experiencing difficulty with ECS courses are encouraged to seek tutoring.

■ Dawson asked, where can more information be found regarding retention of female students within ECS? Barua answered, the College of ECS website contains a link - Women in Engineering and Computer Science - where more information can be found.

■ Torres shared that female students have voiced concerns regarding ECS as a toxic environment for female students. Are there any plans to train faculty and staff within ECS to reduce/eliminate toxicity from the environment - to promote a safe environment conducive to the retention of female students, and students of color? Barua answered, yes, progress has been slow in changing deeprooted cultural norms. A committee has been established consisting of one faculty and one staff member from each department as well as two student representatives. Professional development programs have been established to help with these initiatives.

7. **Executive Senate Reports**

The Mesa Cooperativa, and Community Engagement Commission reports were distributed to the Board.
a. **PROG, MESA, CEC, MGC, ESC**  
*These reports will be submitted in writing.*

8. **Unfinished Business**  
None  
There was no unfinished business.

9. **New Business**

a. **Action: Resolution 2022 Capital Improvements  (Finance)**  
*The Board will consider approving the resolution to allocate funds for 2022 capital improvements.*

   **BOD 022 21/22 (Finance) A motion was brought to the Board from the Finance Committee to approve a Resolution to approve the 2022 Capital Improvements.**

   Chammas yielded to Carlsen, ASI Board Treasurer to review the resolution and discussion from the Finance Committee. Carlsen yielded to Carol McDoniel, Assistant Director of Corporate Affairs to answer any questions regarding the requests.

   Chammas opened the floor to questions. There were no questions.

   Chammas opened the floor to discussion. There was no discussion.

   Chammas asked if there are any objections to moving to a Roll Call Vote. There were no objections.

   **Decision: BOD 022 21/22 (Finance) Roll Call Vote (16-0-0) (Yes-No-Abstain): the motion to approve the Resolution 2022 Capital Improvements was adopted.**

b. **Information: ASI Quarterly Financial Report**  
*The Board will receive information regarding the Associated Students Inc. quarterly financial report.*

   Chammas yielded to Dr. Edwards to review the report. Edwards provided an overview of the report and requirement for the Board to receive and review the financial reports on a regular basis. Edwards yielded to Ehrlich, Director of Financial Services, and McDoniel, Assistant Director of Financial Services, to review the report details.

   - Carlsen asked, as listed in Associated Students, under Contracts & Wages, what is the reason for the decrease in funds allocated between
the 2019 budget year, and the 2021 budget year? Ehrlich answered, the budget for each year is set in anticipation for costs related to student employees and other services over the year. McDoniel answered, the budgeting of funds in advance helps with tracking funds over the year under the presumption things go as planned.

- Bridges asked, what does the column labelled "Variance" account for? Ehrlich answered, the Variance is the difference between the Budget and Actual.
- Sanchez asked why the fiscal year begins in July. Ehrlich answered, the fiscal year is aligned with the school calendar year.
- Diaz asked, in July 2019-2020 the expense for student employee benefits was approximately $29,000. This year the expense was approximately $13,000. What is the reason for this difference? Ehrlich answered, these numbers include workers' compensation. All student employees at CSUF are covered by workers' compensation and the amounts will fluctuate depending on the number of employed students.
- Carlsen asked, in the Titan Student Centers budget, printing/advertising was increased from 2019 to 2021 by $40,000. What is the reason for this increase? McDoniel answered, this difference is a result of moving the marketing department from Associated Students to the Titan Student Centers budget.
- Shah asked, in the Titan Student Centers budget, was there an error in Variance for supplies and merchandise? Ehrlich answered, the respective number was an error and will be corrected.
- Dawson asked, in the Titan Student Center budget, printing/advertising remains at a low use percentage. Why has the allocated funds remained high? Ehrlich answered, the allocated budget is event-driven. Most events happen during the spring semester. The majority of this budget is used to print and advertise for related events during the spring semester.
- Dawson asked, in the Associated Students budget, why does utilities indicate a negative 21-percent? Ehrlich answered, as utilities are charged the month following usage there is an accrual of payment owed. An accrual of credit is maintained in anticipation for future bills. The respective bills have not arrived from campus. As a result the numbers accounted for in advance will appear off.
- Carlsen asked, how does contingency works within the Titan Student Centers, and why is there an additional $100,000 in 2021 compared to the budget of 2019? McDoniel answered, contingency accounts for immediate needs such as replacement of furniture, chairs, or broken items - not defined as a capital expense.

Implementation of New or Upgraded Accounting System

Background:

Existing system implemented in 1989

GL Account structure does not allow for creation of BS and IS, two critical financial reports that need to be reviewed monthly. This was also an audit comment for last year’s audit.

Difficult to train users, especially those more used to accounting based interface and up to date functionality. Increase our time to train and onboard new staff.

Functionality is limited:

- Does not allow for transactions to be recorded across divisions, check requests must be entered multiple times
- Unable to automatically process inter-fund entries between divisions
- Simple tasks such as entering Journal Entries, Ad Hoc reports and printing account detail are cumbersome and multi-step
- Interface is outdated and difficult to train users

New or Upgraded System Benefits

1. Will provide a more seamless and quicker interface for user which will allow more time for analysis rather than the focus on processing transactions.
2. The cost will be significant since it will include licenses, data conversion, implementation costs and training. The ongoing costs may be similar to what we are paying now but that is uncertain at this time.
3. The requested amount maybe higher depending on the licensing requirements.

Summary:
Happy Tuesday! I’ve been busy planning for the Spring semester with the Lobby Corps team and helping the coordinators think of a programming event for the end of this semester. A part of this has been thinking of ways to include you all into our advocacy, so please reach out to myself if you are interested. I will be sending an email out to the Directors who wanted to be a part of the affordable housing project I will be starting on. Recently I was interviewed by USA Today on the proposed $550 increase to Pell Grant the Health, Education, Labor, and Pensions U.S. Senate committee has proposed. In the article I shared my perspective as a Pell recipient and there is a lot of great information on why doubling the Pell Grant is needed for students. If you are interested in reading it check it out [here](#).

I have just finished my second session of the U.S. Department of Education Negotiated Rulemaking for Higher Education 2021-22! I am preparing for the third session that will take place in December. We have made progress on all issue papers and are waiting to see what the DoE adds to the regulations.

The Cal State Student Association has just finished our Fall 2021 plenaries and the next one will happen in January 2022. As Vice Chair of the Legislative Affairs Committee, we have started planning out the Spring semester and how to engage all 23 CSU campuses.

As always, if you have any questions, please email me at asicgo@fullerton.edu.
