Maisune Abu-Elhaija, ASI Board Vice Chair/Treasurer shared two announcements. She shared a flyer and information regarding evaluating food options for Halal dining on campus. Additionally, she distributed the SouthWest Asian North African Culture (SWANA) week flyer, events will be held April 22-25, a copy is attached to the minutes.

**TIME CERTAIN**
Tony Lynch, ASC Director, Campus Dining provided a status update report on the TSU dining and Roscoe’s Deli. A copy of the presentation and information is attached to the minutes.

Highlights:
- Introduced, Chuck Kissel, ASC Executive Director, Ted Nakasuji, Chief Campus Engineer, and Chef Dean Weitz.
- Reviewed timeline for the project. Anticipated opening is late fall 2019.
- Reviewed challenges to Roscoe’s project, including delays due to CA wildfires; pending State Fire Marshall review and approval and State Architect review and approval.
Greco asked about the relationship of the project to the Board. Lynch shared the space/location was identified with ASI, Roscoe’s concept came from student leadership team a few years ago. Space is within the TSU. Role of ASC is to make the project happen, and run the facility when it is completed. Allen shared there were new dining concepts in the TSU that came to the BOT as a package, and were approved by the BOT. The Board is responsible for making sure that the concept is completed in a timely manner and that the project progresses. Additionally, any change in the facility, cost and/or management is brought to the Board.

Lynch shared that Roscoe’s is not a franchise, dealing directly with the owners. Removed the Pub from lower level of TSU, students asked for a facility that served alcohol. Greco asked who will own the business in the TSU. Lynch shared that ASC will be in partnership with Roscoe’s owners. Greco asked what the Board’s liability is. Lynch shared liability for the business is ASC and Roscoe’s. Greco asked about cost allocation and what portion is the Board of Trustees responsibility. Duncan shared ASI is in partnership with ASC, they are building in our space. Allen clarified that the BOT is responsible for timing, providing space and ensuring the project is completed. Greco asked what happens if the project does not complete. Allen shared that the Board would go back to ASC to assess alternate options. Lynch shared the project will be completed.

Evans asked for the definition of timely manner for the project. Allen shared it would be up to the Board to establish the timeline as far as moving to consider other concepts. Lynch shared this concept is taking longer primarily because of the goal of former student leaders wanting to bring the concept to the TSU. Students asked ASC to approach a non-franchised merchant. Lynch does not see that this project will fall out. Timing and cost are a definite consideration. To keep the project on budget and timeline, will be using CSUF Chief Building Engineer as part of the buildout to save funds and move the project along.

**TIME CERTAIN**

Dr. Steve Walk, Interim AVP South County Operations and Initiatives provided a presentation on eSports. A link to the presentation and information is provided herein.

[https://spark.adobe.com/page/EUc6MWSbKqGKf/](https://spark.adobe.com/page/EUc6MWSbKqGKf/)

Highlights:
- Reviewed eSports Revenues and Audience Growth - predicting
- Provided a video: eSports: Inside the World of Gaming
- ESPN eSports
- eSports in Higher Education – gaming is student organized, club level activity. UCI 72% of student surveyed identified as gamers. Competitive play at the collegiate level is relatively recent. Some universities provide scholarships (grants-in-aid) to student gamers.
- What would it take to support eSports at CSUF – CSUF students are already active, competing regionally and successful. Sponsors have shown interest in campus development of eSports.
- Plan considerations:
  - Competition – competitive space; Administrative Home; Competitors
  - Community (Engagement) – Survey of student interest; Advisory Board
  - Academics – Faculty interest (research grants, cross-disciplinary projects)
  - Entertainment/Careers – eSports and other entertainment careers; industry connections.
- Strategic Plan, Goal 1, Objective 5 & Goal 4, Objective 4

Evans shared excitement for the potential to bring eSports to CSUF, and he asked what the end game is for eSports at CSUF. Dr. Walk 1. Have competition opportunities/program for students. 2. Have an arena for masters/internet café type service. Pay to play, open to students and the local community.
Duncan shared after visiting UCI campus, noticed a few items of concern, revenue did not cover costs. ASI would need to partner with campus if were to consider program. Existing clubs on campus wanting this type of program most likely will not rent space, they already have space for free. He shared it would be important to know how many students would be interested, outside of existing clubs and what would need to happen to make the program cost effective. Dr. Walk shared in addition to generating some revenue, there are sponsorship opportunities that would be open to outfitting an eSports space on the campus at no cost to the campus or ASI. Duncan shared those who are pushing for the program would not be open to using a pay for play space, unless they were competing. Dr. Walk shared establishment of a competitive team/space would be relatively easy to implement.

Greco asked about space needs and square footage. Walk shared two spaces, competitive space and arena/internet café with fee for use area. This would require investment from ASI, sponsors and philanthropy. Square footage needs would need to be assessed. Duncan shared they looked into space considerations, could possibly offer something at a smaller scale.

Nikopour asked for more information on the potential locations on campus for the program. Dr. Walk shared there are spaces in various areas on campus including the library and the Irvine Center. There have been no commitments. Duncan shared in the TSU/SRC possibly looking into the racquetball area, Fireside Lounge, and billiard back wall area.

Barillas entered at 2:09pm

Moved into discussion on the amendment.

Evans shared that they want to make sure everyone in ASI has space and the opportunity to be successful. Shared a chart breakdown of square feet per student based on the change/amendment. The chart is attached. He shared that trustees and commissions have a hard time working in the shared office due to the number of students/noise level. Trustees need a quiet place to hold office hours, while commissions need a more open space to talk as a team.

Duncan asked if there are any objections/concerns with the proposal.

Aguilar shared currently use of space has not been an issue in his experience.

Kienzler urged the Trustees to be mindful of students served, and the over 300 student orgs that could receive additional space.

Evans made an amendment #002 to motion BOT 013 18/19 to match the changes to the spring 2019 space allocation. Ansari seconded the amendment. There was no further discussion. The Trustees moved into a roll call vote. Amendment #002 to motion BOT 013 18/19 passed with a 15-0-0 roll call vote.

Kienzler asked to be cognizant of how spaces are allocated based on established orgs versus not established. Duncan shared the Board will need to consider this in the future.

What is Halal?

Kosher and Halal describe what is “fit and proper” to eat for two groups of people, Jews and Muslims. Although these terms are used to describe a wide array of foods and beverages that are acceptable to eat.

Why it should be important to CSUF?

“"At Cal State Fullerton Campus Dining Services, we offer a wide variety of name brand restaurants at multiple locations for your convenience across campus. What makes our locations great is that you can eat where you want, when you want, and exactly what you want for breakfast, lunch, or dinner!"

Five simple steps for granting halal certificate:

- Halal certification application
- Application evaluation
- Halal certification agreement and price quote
- On-site audit
- Certification decision

QUESTIONS?
SHUFFLEBOARD

TITAN BOWL & BILLIARDS
CALIFORNIA HOUSE DISTRICT SHUFFLEBOARD
PLACEMENT IN TB&B
Proposal to purchase a shuffleboard table for Titan Bowl & Billiards.

PRESENTED TO:  Titan Student Centers Board of Trustees

MEETING DATE:  April 17, 2019

PRESENTED BY:  Douglas Kurtz, Titan Student Centers Board of Trustees, Vice Chair of Operations

BACKGROUND
The addition of shuffleboard to Titan Bowl & Billiards has been discussed for a couple years. It was not purchased in 2018 due to a delay from the manufacturer.

PROPOSAL
To purchase one standing Shuffleboard, no less than 12 feet and no more than 16 feet in length, from unused funds from the travel and contingency budget of the Titan Student Centers Governing Board. It will be housed in Titan Bowl & Billiards for all students, faculty/staff, and the community to use. The table materials will complement the same aesthetic as the billiards and foosball tables in Titan Bowl & Billiards. A cover to keep the shuffleboard from being damaged when it is not being used will be included in the purchase.

RATIONALE
Titan Bowl & Billiards is a place for students and the general public to engage in fun and exciting games. The addition of Shuffleboard will add to this vision. It is a game that can easily be played by anyone and does not require a lot of upkeep. It will not obstruct or take away from any of the activities already in place in Titan Bowl & Billiards.

IMPACT
Shuffleboard will be added to Titan Bowl & Billiards for everyone to enjoy. No other games, tables, and chairs will be removed from Titan Bowl & Billiards. Existing tables will be adjusted to accommodate the table in the gaming area.

BUDGET IMPACT
Cost of the table, cover, delivery and installation shall not exceed $5,000. Money will be allocated from the Titan Student Centers Board of Trustees Contingency account (1900-8097) for $1,500 and from unused travel (1900-8077) for $3,500. Cost per game will begin at $4.75/hour for CSUF students, $6.25/hour for CSUF Faculty/Staff, and $8.15/hour for community members. Fees will be assessed annually by the Titan Bowl & Billiards staff or as needed.

IMPLEMENTATION TIMELINE
Shuffleboard and cover will be installed and activated in early summer 2019.
Re-allocation of office space on the upper level of the Titan Student Union.

PRESENTED TO: Titan Student Centers Board of Trustees

MEETING DATE: Wednesday, April 17, 2019

PRESENTED BY: Chris Evans, Vice Chair of Facilities, TSCBOT
                Jeff Fehrn, Associate Director, Titan Student Union
                Drew Wiley, Director, Leader and Program Development

BACKGROUND
The Board of Directors (BOD) recently approved the creation of a new Executive Officer position. This new position has created the need to adjust the space allocation for our ASI student leadership offices.

PROPOSAL
The space in TSU 260 will be reallocated for an ASI student leadership office. The BOD Chair (currently TSU 213 in the Executive Offices Suite) will be relocated to TSU 260 (the office next door to the current BOD Vice Chairs’ Office). The space in TSU 254 will be converted to a Board of Trustees office space.

RATIONALE
This proposal has been created with the rationale that our student leaders need to have close proximity to others that they work with most. The creation of a new Executive Officer position has resulted in the need to have space within the Executive Offices suite in TSU 207. This need lead to the decision to propose the relocation of the BOD Chair office. Relocating this office next to the current Vice Chairs’ office will enhance these leaders’ ability to communicate and collaborate.

IMPACT
Reduction of two club office spaces.

BUDGET IMPACT
None to minimal budget impact is expected, as existing furniture will be used primarily. Any new furnishings will be purchased from existing operating budget funding.

IMPLEMENTATION TIMELINE
Process will begin at the end of Spring 2019 and will be completed in early Summer 2019.
TITAN STUDENT UNION UPPER LEVEL
California State University, Fullerton
Proposal to allocate club office space in the Titan Student Union for the Fall 2019 Semester

PRESENTED TO:   Titan Student Centers Board of Trustees

MEETING DATE:   Wednesday, April 17, 2019

PRESENTED BY:   Chris Evans, Vice Chair of the TSCBOT Facilities Committee
                  Drew Wiley, Director of ASI Leader and Program Development

BACKGROUND
   The Titan Student Union offers a club space program within the facility for recognized CSUF
   student clubs and organizations that includes office spaces and storage lockers. Office spaces are
   allocated by the TSCBOT each semester.

PROPOSAL
   Allocate available club office spaces in the Titan Student Union to the recognized student
   organizations listed on the attached allocation roster for the Fall 2019 Semester.

RATIONALE
   Based on the applications for office space submitted, the student organizations listed on the
   attached roster were assessed to have the best presented applications and plans for using the
   office space during the Fall 2019 Semester.

IMPACT
   By offering space to recognized student organizations, the Titan Student Union continues to
   present opportunities for these organizations to engage with members and prospective members
   to accomplish club goals. As these spaces are already allocated for student organizations there
   will be no additional impact.

BUDGET IMPACT
   There is no budget impact associated with the proposal.

IMPLEMENTATION TIMELINE
   Student organizations allocated space will be contacted prior to the end of Spring 2019 Semester
   and will move into their offices the week before the Fall 2019 Semester.
