Vanderhook asked for a copy of the of the final office assignment.

PUBLIC SPEAKERS
None

TIME CERTAIN
Carol McDoniel, ASI Director of Administration provided an overview of the TSU Renovation project. A copy of the overview is an attachment to the minutes. McDoniel introduced Megan Gaunce, HPI Architect, and Monique Swihart, HPI Associate to review the Feasibility Report and information.

Gaunce shared a presentation which is an attachment to the minutes.

Vanderhook asked about the meditation/foot washing station on the second floor and the thought process for putting it into the floor plan. Duncan shared these spaces already exist in the TSU on the second floor, they were wanting to make it more accessible for students. Many students have expressed interest in having these resources available. Vanderhook asked why such a large area has been designated. Allen shared the square
footage is not large, maybe 110-150 square feet, maybe six people standing at one time. Did not want to displace anything that was available to students in the process.

Evans asked about the restrooms and the multiple locations. Gaunce shared that the restroom locations need to be balanced according to code. They need to be convenient for every student.

Kurtz asked if it would be inconvenient for HR/Marketing to have restrooms at the front of the suite. Gaunce shared they wanted to make restrooms available to public and do what was best with the space.

Kurtz asked about a large undefined space on the floor plan. Swihart shared it was HVAC.

Greco asked about the lighting. Gaunce provided an overview of looking at a variety of lighting options, including LED.

Kurtz asked about the square footage for each area and how much. Gaunce shared it is available and will be included in the final report to the organization in May 2019.

Scialdone asked about restricted access to people coming into the suite from the back stairs/elevator. Gaunce shared it will be used for exiting and the organization will need to establish standards for securing access.

Vanderhook asked about club orgs space having private meetings. Duncan shared the idea was to assess how to provide club office space. One idea was to have space for clubs in general, can use at certain times during the week. Gaunce shared within the foot print, they can designate cubicle space or add an additional conference room, or small informal conversation space for smaller groups. Allen shared they are looking at timeframes for when offices are being used and how groups are using the space. Still hasn't been determined, may consider a lottery system. Orgs also have access to large conference room on the floor. The process will be different going forward and ultimately the Board will decide how they allocate space for clubs and orgs.

Kienzler shared the community service programs is missing from the office allocation. McDoniel shared that Tony Pang has included them in the Student Life and Leadership space.

Greco asked for clarification on the process: where will the walls go, where the furniture will be placed and if HPI provides consulting services to assist in determining where everything is placed. Gaunce shared that it is a service that is provided and shared information. Greco asked about artwork/design consultation. Zordilla shared information about the Concept Design process that will work on the build design and concept design. It could be HPI or another design firm.

Greco asked if there is any government entity involved that could identify any issues that could cause additional cost to the project. Zordilla provided an overview.

Kurtz asked about lower level club space and lounge space/seat count. Gaunce provided an overview and shared that furniture used now is oversized. Moving forward they will use more efficient furniture, but will lose 20-30 seats overall. Kurtz asked about the Arcade area. Gaunce shared the Power Zone location is currently not in the plan.

Evans asked about the student leaders’ office hours and where student leaders would hold those conversations. Gaunce shared they can utilize open space to allocate space or utilize the small conference area proposed in the plans as needed.
UNFINISHED BUSINESS
Action: TSU Food Court Update
Kurtz motioned to table unfinished business to next week due to time constraints. Ansari seconded the motion. There were no objections.

BOT 015 18/19 (Facilities) A motion was brought to the Board of Trustees from the Facilities Committee to approve a proposal to fund the purchase and installation of new flooring, furniture, power and lighting upgrades in the Titan Student Union (TSU).

NEW BUSINESS
